Enemy Stalls Drive Along Much Of Front

5 UN Divisions Smash At Chinese

U. S. 8TH ARMY HEADQUARTERS, Korea (AP)—Flame-throwing infantrymen from five United Nations burned two narrow wedges in Chinese defenses on the western front today in some of the fiercest fighting of the Korean war...

But smashing Red counterattacks along the two-day old Allied offensive cold long much of its 40-mile front.

Gains up to four miles were hammered out in two days. At other points gains were so limited the yardage was not announced.

See-saw battles ranged over all the shrub-covered hills in the Imjin River sector northeast of Kaesong, site of the disrupted truce in the summer.

The Allied offensive was one of the heaviest artillery barrages of the war. American, British, Canadian, Australian, New Zealand, Greek, Turk, South Korean and Filipino troops participated in the attack.

The Chinese fought so stubbornly from their deeply dug in positions—many of them dug in for months ago—that they had to be burned out by flame throwers or blasted by hand grenades.

Canadian troops fighting west of Yoncheon, seven miles north of the 38th Parallel, made the four-mile advance. Fifty-seven-ton American tanks supported their advance.

Puerto Ricans of the U. S. Third Division plunged a mile ahead northwest of Choron in the only other noteworthy U. N. advance reported Thursday.

Other Third Division troops attacked a hill mass west of Choron for the fifth straight day. They reached the crest twice, only to be pushed off each time.

One unit attacking from the south reached Red trenches after a counter-attack in a half hour battle. A second Chinese assault, however, drove the Americans off.

Between the Third Division and the Canadians, Red counterattacks forced small withdrawals along a ten mile sector. U. S. First Division cavalrymen and supporting Green troops made limited gains against heavy Red mortar and artillery fire in this sector northwest of Yoncheon.

An Eighth Army briefing officer said the Reds "threw a number of counterattacks" against the cavalrymen, "forcing slight withdrawals in one area."

He said the last of the series of three loans themselves had been made five months before he became the GOP chairman. "It is perfectly clear, therefore, that that neither before nor after I became chairman did I receive a fee, or any other compensation, for obtaining a Government loan."

"I expect this committee to do state in its report," he added.

Boyle testified before the subcommittee previously.

LAND OF WAVY PALMS

Winds of 60 mph lashed palm trees on Normandy Isle during a recent storm and pushed the waters of Biscayne Bay up over the sea wall, flooding residential areas.

Hurricane Spares N. C. Coast

CAPE HATTERAS (AP)—A giant hurricane with winds of 100 miles an hour skirted North Carolina's Outer Banks today and headed northeastward into the open Atlantic.

A sudden shift in direction spared the coastline from possible major damage. Only storm gusts of rain and winds up to 50 miles an hour lost coastal residents of its passage at sea.

The Miami Weather Bureau in an H. A. M. advisory said the hurricane was centered about 120 miles slightly north of east of here. It was moving northeastward about fifteen miles an hour.

Willie Moretti, Gambler, Slain

CLIFFSIDE PARK, N. J. (AP)—Willie Moretti, self-admitted gambler and crony of underworld big shots, was shot to death today in a restaurant.

The dapper Moretti was a witness before the Senate Crime Committee Washington several months ago. He told the grim probes he made thousands of dollars—legally—betting on the horses.

Moretti was a close pal of Frank Costello and Joe Adonis, and other high echelon racketeers. His brother is Sal Moretti, now serving a prison sentence with Adonis for gambling operations in New Jersey.

First reports said Moretti was a slayer at Joe's Restaurant, 733 Park Avenue Ave. here. There were no other details.

The restaurant is across the street from the Madison amusement park.

CHECK OFF ONE MIG

In fact, declared the President, announcement and their bosses should on their own initiative refrain from publishing such information even if it is released by authorized Government agencies.

The order was issued Sept. 25. It empowers civilian as well as military of the Government's agencies to withhold information which they think might endanger the national security, and establishes uniform method of "classifying" such information.

ORDER CRITICIZED—Although the President's announcement of the new order said censorship was not involved, the order has been widely attacked by editors, publishers and many members of Congress as establishing censorship at the source of information which the public is entitled.

Various reporters at the news conference then expressed puzzlement over the order.

Our Father: May we hear thee saying to us, "Have no anxiety about anything but in everything by prayer and supplication with thanksgiving let your requests be known unto God. And the peace of God, which passeth all understanding, will keep your hearts and minds through Christ Jesus." Amen.

OUR WEATHER

Fair today and Friday with no important change in temperature. Highest yesterday, 64 degrees. Lowest this morning, 60 degrees.

HURRICANE SUNSETS

Why do hurricanes produce such gorgeous sunsets? The sheet of cloud from the storm top may be a hundred miles and when its sunbeams are lit by the setting sun, vivid colors are brought out. Light in travel through a considerable thickness of the lower atmosphere, has most of its blues and greens filtered out, leaving the reds, oranges and yellows. The sky color ranges from brilliant yellows in the west through orange and crimson into deep red in the east. In the sun sinks, the fiery colors march westward across the sky.

EVENING PRAYER

Our Father: May we hear thee saying to us, "Have no anxiety about anything but in everything by prayer and supplication with thanksgiving let your requests be known unto God. And the peace of God, which passeth all understanding, will keep your hearts and minds through Christ Jesus." Amen.

Warren Austin Lauds Jessup

WASHINGTON (AP)—Warren R. Austin, chief U. S. delegate to the United Nations, today described Ambassador Philip C. Jessup a "powerful protagonist of American interests with no trace of Communist sympathies."

Austin gave his views to a Senate hearing on the nomination of Jessup as a delegate to the U. N.

Jessup has served previously in the U. N. under Austin.
