Something unhappy has happened to their marriages. . . Thousands break up every year in Charlotte. This scene is at the headquarters of Domestic Relations Court.

FALLIBLE FORECASTS

Do you expect weather forecasts to be infallible? Some people become angry when forecasts go wrong, because they don't appreciate how weather really works. A physicist in a laboratory can control the temperature, pressure and volume of the atmospheric gas in which he works. Furthermore, the composition is constantly changing. The weather is not that weather forecasts sometimes go wrong, but that they are an infrequently right, considering the difficulties involved.

Yachon Is Entered By U.N. Force Planes Get Hits On Yalu Bridge

TOKYO — Allied troops smashed into Yachon nine miles deep in Red Korea today and hammered out limited gains along the rest of the 150-mile North Korean battleline.

Communist resistance ranged from light to bitter.

Yachon is three miles northeast of Yangju. The Red supply base captured Sunday on the east-central front.

About 50 North Koreans fled from Yachon before the attack. Then they stopped and threw mortar fire back into the city.

Farther east, South Korean troops occupied a high Korean ridge in the air war. F-86 Sabres jets tangled with Russian-type MIG-15s Monday afternoon. In the first battle since F-86s mixed with 30 MIGs, American pilots reported two MIGs damaged and one probably destroyed. Late in the afternoon eighteen Sabres jets clashed with more than fifteen MIGs and chased them back across the Yalu River. The Communist planes escaped damage.

WELCOME AT WHITE HOUSE

The White House, meantime, said MacArthur is welcome to call on President Truman while here if he asks for an appointment.

Rayburn, Texas Democrat, told reporters earlier after a White House visit that Democratic leaders had assured Mr. Truman "we are going to extend every courtesy" to Gen. MacArthur.

Joint Meeting Set Thursday House Agrees To Hear General

WASHINGTON — The House agreed unanimously today to a joint meeting with the Senate Thursday to hear Gen. Douglas MacArthur.

Democratic Leader McCormack (Mass) asked that the House empower Speaker Rayburn to declare a recess during the regular session Thursday so that MacArthur could be heard.

There was no objection, so the matter was settled.

No further action by Congress is necessary, since the unanimous consent request implied an invitation to the deposed general to speak. However, the Senate tomorrow must go through the formality of deciding to come to the House chamber Thursday to hear MacArthur. The Senate was not meeting today.

ACHESON URGES SPEED IN SENDING GRAIN TO INDIA

WASHINGTON — Secretary of State Acheson today urged Congress to act quickly to send 2,000,000 tons of grain to India where, he said, a famine is developing more rapidly than in any other part of the world.

Acheson went before a closed session of the Senate Foreign Relations Committee to discuss the Indian aid proposal. He seemed certain, too, to run into questioning about Far Eastern policy generally.

Cites Korea 'Meat Grinder'

WASHINGTON — (AP) — Rep. Gore (D-Tenn.) indicated today that he would introduce legislation to repeal a military exemption for atomic weapons.

Something cataclysmic, it seems to me, is called for. We have it. Please consider using it. While the AEC and military authorities are known to have been working on weapons which, with only a bomb blast, would spread radioactivity. Gore's statement was the first word from an official to repeal a submarine attack on our naval forces or any attempt to invade Japan.
