TOKYO, Sunday.—The Allies won a savage, searful fight with Reds in Central Korea, but they lost it five times during the past week. The Reds pulled back, possibly to regroup for a new blow. U. Dewey Will Visit Korean War Front

Thought it important to go

ALBANY, N. Y. (AP)—Gov. Thomas E. Dewey will fly to the Korean war front early next month as part of a 25,000-mile tour of critical areas in the Pacific. The twice-elected Republican candidate for President announced today he would leave July 1 by plane and would be gone a month. Asked the purpose of his trip, Dewey said that "for a good many years I have felt the importance of the Pacific area and Southeast Asia to the free world was critical. It is clear that our own security and that of the rest of the free world depends to a large extent on developments in the Pacific."

U. S. Judges Give School Case Ruling In 2 To Decision

CHARLESTON, S. C. (AP)—A three-judge Federal court today upheld the segregation of white and Negro students in South Carolina's public schools.

The decision, in effect, upholds the traditional segregated public school system of the entire South. The 2 to 1 decision was accompanied by an injunction ordering South Carolina to equalize its school facilities for Negro students. The decision upholding segregation came on a 2 to 1 vote Judge John J. Parker, of the Fourth U. S. Circuit Court of Appeals, and District Judge George B. Timmerman comprised the majority. District Judge J. Walter Waring, who opened South Carolina's Democratic primaries to Negroes, dissented.

The court entered this decree in making its ruling. "In the above entitled case the court finds the facts to be as set forth in its written opinion filed herewith and on the basis thereof it is adjudged by the court: (1) That neither article II, section 7 of the Constitution of South Carolina nor section 537 of the code are of themselves violative of the provisions of the Fourteenth Amendment; and that the plaintiffs are entitled to an injunction restraining the defendants from the public schools of School District No. 2; (2) That the educational facilities, equipment, curricula and opportunities afforded in School District No. 2 for colored pupils are not substantially equal to those afforded for white pupils; that this inequality is violative of the equal protection clause of the Fourteenth Amendment; and that the plaintiffs are entitled to an injunction restraining the defendants to make available to them and to other Negro pupils of said district educational facilities, equipment, curricula and opportunities equal to those afforded white pupils. And it is accordingly ordered, adjudged and decreed that the defendants proceed at once to furnish to plaintiffs and other Negro pupils of said district educational facilities, equipment, curricula and opportunities equal to those furnished white pupils; (3) That it is further ordered that the defendants make report to this court within six months of this date as to the action taken by them to carry out this order and reports are retained, or further orders this 21 day of June, 1951.

Cutting To Depend On Appropriations

By G. MILTON KELLY
WASHINGTON.—Senate leaders said today they hope to soften the impact of a whopping \$1,200,000 tax boost proposed by the House. They were cautious about providing any estimates. The tax bill, largest single revenue measure ever laid before Congress, would: 1. Raise 10 per cent to the income taxes of individuals to raise an additional \$400,000,000 a year. 2. Place an additional \$1,200,000,000 in excise taxes on gasoline, automobiles, cigarettes, liquor, beer and other items. 3. Add \$255,000,000 a year to corporate income and excess profits taxes. 4. Raise \$245 million a year through a variety of changes in the tax law structure.
