

General Lincolnton

Says Red Cared Prof 'Man'

Voice Of America Official Heard

WASHINGTON (U.S.)—A former Russian spy, identified today as the head of Soviet intelligence referred to by Lattimore and Joseph Barnes as "our man."

Alexander Barmine, now head of the Russian unit of the State Department's Voice of America, gave the testimony to the Senate internal security subcommittee.

Barmine said he was supplying arms to a Western China province in 1933 while serving as a Russian intelligence officer.

He recounted that he asked his superiors for additional personnel.

He quoted a General Berzin, identified as chief of Soviet military intelligence, as first offering several of his men and specifically mentioning Lattimore and Barnes among others.

Barmine said these were the first two American names that came to him in his intelligence work for the Soviet Government.

In Baltimore Lattimore described the story as "pure poppycock."

Storage Tanks Full Oil Flow Stopped In Iran Plant

By ROBERT B. HEWETT
ABADAN, Iran (U.S.)—A red-haired Scotman pushed a button today and halted the last gasoline-producing machine of the world's largest refinery—closed in the bitter oil row between Britain and Iran.

The Anglo-Iranian Oil Co.'s giant plant at Abadan Island has been idled down production for the past month. Today it ceased altogether because no more oil remained in the tanks of storage tanks to put any more gasoline, kerosene and other products.

More than a month ago the traffic of oil tankers was halted by the nationalization dispute which centered over Iranian seizure of the AIOC's war holdings. Both the Iranian government and AIOC demanded payment for oil shipments and as a result, the company pulled out its tankers.

There was little fuss over the closing of the refineries' last operating unit.

Red-haired David Blair Watt, AIOC distillation unit superintendent, pushed the electric switch halting the roar of gas flames heating the pipes dead away.

The shut-down of the British-owned big pipeline from Aga Jari 130 miles away was checked off.

Live pipes ran through the pipes and in a half hour the process was completed.

The shut-down climaxed the month-long dispute over ownership of the billion-dollar AIOC which was written a book in 1925 by the British Navy and Western Europe.

No Progress On Buffer Zone Issue Delegates Meet Again Tonight

By ROBERT B. TUCKMAN
U. N. ADVANCE HEADQUARTERS, Korea (U.S.)—Armistice negotiators argued stubbornly for an hour and 34 minutes today on where to draw the cease-fire line in Korea without getting any closer together.

It was the fifth successive day United Nations and Communist delegates met to discuss the buffer zone issue. The announced result of each session was the same: No progress.

"The area of disagreement has neither broadened or narrowed," said an official U. N. spokesman today. The Reds want U. N. forces to abandon their present battle line and pull back to the 38th Parallel.

There was no indication of a compromise to me today," commented the briefing officer, Brig. Gen. William P. Nash. On the other hand, as you know, a position can be adjusted very quickly. That is neither optimistic nor pessimistic.

The official U. N. spokesman said: "There was no perceptible change in the expressed viewpoints of the two delegations" in Tuesday's session.

Vice Adm. C. Turner Joy amplified the Allied position, the announcement said, trying to show the mutual benefit to be derived from acceptance of this view.

North Korea Lt. Gen. Nam Il said the Reds are "insulting" this "previously stated stand."

The U. N. wants the demarcation line established along the 38th Parallel. The Reds want a buffer zone centering on the 38th Parallel, pre-war political dividing line of North and South Korea.

Truman Advised To Sign Controls Bill

By MARVIN L. ARROWSMITH
WASHINGTON (U.S.)—President Truman's key stabilization aides reportedly have advised him to sign the new economic controls bill today—and also to blast it as inadequate to curb inflation.

In Congress, the general expectation was that Mr. Truman will approve the bill by midnight, when the present law expires.

The White House said only that the President was not expected to act on the measure until late in the day, probably in the evening.

Some lawmakers termed the bill they sent to the White House yesterday a good one and said the President has no justification for not checking inflation.

The United Labor Policy Committee, representing most of organized labor, blasted the measure as "a callous betrayal of the consumers" and said it would backslide.

Disalle is understood to feel that the administration of the provision will add his agency with tremendous accounting task.

Disalle's stand was said to have the backing of Stabilization Director Eric Johnston and Defense Mobilizer Charles E. Wilson.

UN Planes Pound Reds; Little Ground Activity

U. S. EIGHTH ARMY HEADQUARTERS, Korea (U.S.)—Bomber planes swept through low clouds today and hammered Red positions in the 28th Parallel on the western front of Korea as ground fighting again dwindled to paired activity.

Prime target of Fifth Air Force planes was the area around P'nyongnam, northern apex of the 28th Parallel, where Communist units are Mustangs of the 18th Fighter Bomber Wing made the attack.

"We strafed a lot of troops on the road and napalmed (fire bombed) a nearby village," said Capt. Gerald R. Marshall of Woodbury, N. J., who was flying.

"We set off an explosion in the village — apparently a combination of gasoline and napalm," he said.

Marine fighters and B-36 bombers hit the Kumson area east of P'nyongnam.

Reds between Kumson and Kumha, eastern Allied-held anchor of the old triangle, hurled mortar shells at the 28th Parallel lines early this morning. Both were turned back.

There were the only attacks of any kind reported in the U. S. Eighth Army's evening communique. The 28th Parallel, however, has reported little or no contact between opposing forces.

To Be Sent To Criminal Insane Unit Won't Face Trial In Brady Slaying

A jury ruled here today that Earl Francis Kraai, charged with killing Nimitz Watchman C. D. Brady here July 10, is mentally incompetent.

The Wisconsin man, who was arrested the day after Brady's murder in Dowd Road plant, is expected to be committed to the Criminal Insane Division of Central State Hospital.

Solicitor Basil Whitener said Kraai would be held there until some time when he might be adjudged mentally competent to stand trial.

The jury hearing testimony in the sanity trial this afternoon was out only three minutes before announcing its verdict.

The jurors heard three witnesses say they did not believe Kraai was mentally able to understand the nature of his acts.

A psychiatrist, Dr. Marshall L. Fisher, said Kraai during an interview described himself as:

- 1. A Catholic priest.
- 2. Commandant of the Marine Corps.
- 3. Heavyweight champion of the world.
- 4. Father of twelve children, ranging in age from thirteen to five.
- 5. Director of the Federal Bureau of Investigation.
- 6. Director of the Mental Hygiene Clinic, described Kraai as "a very mad man."
- 7. A witness in the case, said he had no action sufficient to express his extreme opinion.
- 8. Dr. Fisher said Kraai, besides suffering from delusions of grandeur, has a great fear that almost any remark directed at him is a threat.
- 9. "He will launch an attack on anyone who makes a gesture toward him," the psychiatrist said. Kraai's brother, Edward Harold Kraai, said the accused murderer was a patient in the Wisconsin State Hospital twice and had served time in Wisconsin reformatories.
- 10. Edward Kraai said his mother was committed to a mental hospital in 1933 when she was only two years old.
- 11. Police Chief Frank Littlejohn, who said Kraai was found in custody while investigating the fatal beating and shooting of Mr. Brady, said he believed Kraai was not mentally competent.
- 12. The Chief said he had been threatened by Kraai while he was in custody, questioning the prosecution.
- 13. Mr. Brady, who was well-known in local circles, was found in the Pennigar Plumbing Supplies Co., 632 Dowd Road, in 1950. He had been beaten with a flashlight and then shot. Officials said fingerprints on the flashlight matched those of Kraai.

Atom Cost Near \$5 Billion Mark

WASHINGTON (U.S.)—The nation has spent \$4,800,000,000 on the career of the atom so far.

The Atomic Energy Commission reports that \$1,600,000,000 is appropriated, but unexpended, funds—and it has asked Congress for \$3,200,000,000 more for the current fiscal year.

The AEC gave out these figures at a news conference yesterday following its annual report to Congress.

62,700 Fail Aptitude Test

WASHINGTON (U.S.)—About 62,700 college students flunked today a first draft aptitude test, given May 21 to 185,000 students. Selective Service said that 23 per cent of the 42,500 freshmen tested May 26 earned scores of 70 or below, 22 per cent of the 53,000 sophomores, 72 per cent of the 44,000 juniors, and 77 per cent of the 18,500 seniors.

Selective Service said these samples indicate that about 60 per cent of the students in the lower portion of their classes and 75 per cent in the upper part scored 70 or below.

Draft boards have been asked to use the test scores and scholastic put it in his hat for sleeping and to defer individual college students.

The test was given to 7,000 graduate students.

New Storage Sites For Atomic Weapons Planned

By FRANK CAREY
WASHINGTON (U.S.)—The Atomic Energy Commission disclosed today it is developing new but secret sites to "store" atomic weapons—and also planning "much more frequent" test blasts.

Word of the new storage sites came out of a news conference held in connection with AEC's (sixth) semi-annual report to Congress made available today.

A reporter noted a statement in the report that "development of new facilities for weapons purposes proceeded (in the first six months of this year) and announcements were made of some of the projects made necessary by our store our bombs."

Simultaneously with release of the report, President Truman asked Congress for a supplemental appropriation of \$27,000,000 for the AEC.

Harris in London

Prime Minister Clement Attlee (right) shakes hands with W. Averell Harriman, President Truman's special representative, after talks were held in London on the British-Iranian oil dispute at No. 10 Downing Street in London.

Harriman flew to the British capital after a series of conferences in Teheran, Iran. (Acme Telephoto.)

Increasing acquisition of uranium ores and stepped-up production of fissionable materials from them.

Achievement by the United States of the No. 2 spot among "free nations" in the production of atomic energy.

Hits Emphasis On Race Incidents

Asian newspapers regularly give huge play to Negro and other racial problems in the United States. Dewey, who is making a Pan Eastern tour, stepped into the ticklish question by declaring: "This is the true reflection of an incident of racial or religious or national abuse by one group or another. But to pretend that the occurrence of such an incident as the major news from the United States is to ignore the fact that the United States is a democracy and is considered worthy of a four-column publication on the front page."

The Governor was referring to the recent race rioting in Chicago's Southside suburb of Cicero.

Sen. Morse Raps Coalition Proposal

WASHINGTON (U.S.)—Senator Morse of Oregon today assailed a proposal of Senator Mundt of South Dakota, a fellow Republican, for coalition of Republicans and Southern Democrats.

Morse issued this statement: "The proposal of Senator Mundt published in this week's issue of the U. S. News for a coalition of Republicans and Democrats following the Republican landslide is a repudiation of the basic Republican principles of Lincoln."

"It places the Republican Party on the auction block. It is a denial of the history of the Republic and a public Party in defense of the human rights guarantees of the Constitution."

OUR WEATHER

Partly cloudy and warm today with light and tomorrow with widely scattered showers or thunderstorms. Little change in temperature.

High yesterday, 84 degrees; low this morning, 69 degrees.

Sunday, 83 A. M. sunset, 7:37 P. M.

More Weather Data on Page 3-A

HEALTHY HEAT

Does hot weather tire you out? Most people feel that prolonged summer heat leaves them enervated, with cool weather in summertime gives them a sense of relaxation. But medical climatologists say it's the heat, not the sun, that wears you around. Hot weather slows down metabolism, lowers the blood pressure and rests us involuntarily. A cool summer, or a vacation spent in a cool climate, keeps the body tempo at a higher pitch and doesn't provide the relaxation that's necessary in preparing for next winter. Hot weather now will make you healthier in January.

Reckless Driving Thought Justified In This Case

DAYTONA BEACH, Fla.—The young man charged with reckless driving had an excuse—he had a snake in his hat.

David S. Youngmark of Cove Springs bought a foot-long boa at a tourist attraction here, put it in his hat for sleeping and clapped the hat on his head.

He told police he became un-nerved when the reptile slithered out of captivity and down his arm.

One of the considerations (in choosing testing grounds) is having somebody. AEC Chairman Gordon Dean laid reporters "warm" get very large in emergency.
