The unfortunate thing is that the President's occlines is probably justified. Since Thomas Jefferson handpicked his Friend, James Madioun, to follow him in office, American Presidents have now. They derive this strength from the preside of the office and from the control they exercise over the loyal party hacks who dominate convention proceedings.

The American voter is prevented from exercising any real choice in selecting his President. The conventions are called to order. The bosses start trading. Willies will emerge above the smoke of the convention hall and explure the imagination of tired, divided delegaties. When that happens, however, the popular candidate may not receive the full backing of the party requirer in the ensuing campaign.

A political party, like any other organization, must have strong leadership if it is to be successful. Leadership alone, however, it is not enough, it must also have bread and strong pagular support. The best way, it seems to us, for return the preferential primary system now in use in several states in the preferential primary, voters may express their unofficial choice among several candidates. Convention delegations, in turn, are influenced by this expression of public ophinion, even if they are not bound by it.

North Carcolina has not seriously considered the preferential primary. That Nava believes it should do no.

He has no mirror in the house, and I asked him how he managed to shave without one. He said he used the spring. Well, a spring is a good reflector, but springs are drying up in these latter years.

I told the dol settler about the barber in the outskirts of Lenair who cuts hair for the class every Spring, and he said he believed he would get his shave there when the weather gets warmer.
