TOO MUCH POWER FOR ONE MAN

WHEN the 83rd Congress gets through its organizational details, it ought to have another look at the Walsh-Haley Act. The law was passed back in 1936. It gives the Secretary of Labor the power to establish a minimum wage scale schedule for all government contracts of \$10,000 and over...

It is setting a new minimum wage in the industry of \$1.03 an hour — 25 cents above the level set by Congress. We do not suggest that \$1.03 is too much to pay a textile worker. The great majority of them—some 878,000 of them—already make that much. It is estimated that only 75,000 textile workers draw less than the \$1.03 scale.

RUSSELL REJECTS AN UNWISE PROPOSAL

SEN. DICK RUSSELL showed plenty of good sense when he quickly dashed cold water on Senator Hunt's suggestion that his Senate Armed Forces committee call on Gen. Douglas MacArthur to set his views on ending the Korean War.

Now a new party will launch in January. It will control both the Presidency and the Congress. The President-elect is a military man with a background fully as illustrious as that of General MacArthur. And he has just recently had a first-hand look at Korea.

A MAN AND A COLLEGE

THOSE of you who have sat on the sidelines and watched the steady growth and development of Queens College cannot possibly evaluate adequately the service that McArthur has rendered to the Charlotte institution. We can only attempt it.

The retiring chairman of the trustees deserves a rest. And in H. Everett, Queens has found another of extraordinary energy and exceptional ability who may be expected to continue shaping wise policies for the future of the college.

IT'S HARD TO PLEASE EVERYBODY

IF the journalistic truism that "the conflict is the news" is simply the inversion of the old proverb that "no news is good news," then the book that won this year's North Carolina Mayflower Cup award was not without newsworthiness.

context—in short, resorts to just about every item in the calendar of intellectual crimes and misdemeanors." And so it went. The Christian Science Monitor reviewer said he believed "that no author as an earnest Protestant, has attempted to handle a difficult and controversial theme so honestly and objectively."

Wants Purebreds Segregated

EDITORS: The News expires on the 13th of January. I am not knowing it not because of any pique or because of lack of appreciation of its news coverage or its thought-provoking and independent editorial page. I can get it on the day of publication and I am sure you will feel inclined to renew my subscription.

Only in the barnyards of man do we find confusion of the species. I often wonder if we are not missing goals in promulgating the doctrine of one blood and the resultant confusion of the human species. Nature's purity suggests that we may be doing exactly the opposite.

TOUGH — BUT EFFECTIVE

A FEDERAL Judge in the Midwest, former Gov. Luther Youngdahl of Minnesota, this week called the American who drives his automobile while he is under the influence of alcohol "as great a menace to the dignity of human life as communism."

It is contrary to diplomatic rules for a foreign envoy to make a speech in his own country, and a diplomat who does so is subject to recall. One such historic precedent was the case of Sir Lionel Adolphus-West of the British Embassy who was summoned back to London when he wrote a private letter advising an alleged British citizen in the United States to vote for Grover Cleveland in 1892.

Every Utahn remembers the furore a couple of years back stirred up by a Salt Lake City judge's policy of jailing all persons found driving without an unexpired Utah driver's license. There was a veritable tempest of argument over the justice of meting out a five-day jail sentence for what was by some people a comparatively minor offense.

There was considerable difference of opinion over putting people in jail for failure to have a license, but there should be none over the question of jailing the driver who endangers the lives of everyone on the highway. If such a program were thoroughly and consistently enforced, it would surely be effective, and with the lives of our citizens at stake, it is surely worth a try.

What's The Quickest Way Back To Korea?

Dulles Plans Major Revisions In Foreign Policy Formulation

WASHINGTON (AP)—President Dwight D. Eisenhower and Secretary of State John Foster Dulles have approved the policy framework spelled by the peculiar way the American Government arrives at great decisions. Dulles has never been particularly forthcoming in describing the process. But Dulles has in mind, albeit still rather tentatively, is a sort of National Policy Planning Staff, which members will spend all their time and energy planning American strategy in the future.

People's Platform

Letters should be brief. The writer's name and address must be given, but may be withheld from publication in the discretion of the Editors. The News reserves the right to condense.

Teach According To Child's Ability

EDITORS: The News of the tenth, pleading the cause of the gifted child in our public school system, is a grand contribution to straight thinking and lays the foundation for a specific suggestion.

Ruark Leaves It To Ike, And Heads Back To Africa

By ROBERT C. RUARK
preening itself in front of Donor's on the Via Veneto in Bella Roma. If Santa Claus comes to call on me he will have to bring a Certificate of solvency from the bank and a good conduct report from his local police. For I think I will be spending Christmas with Hailu Selassie in Ethiopia, and they are very stern about transients in their midst. And I am bound to Egypt with my life. I know a lot of nefarious people in Cairo. People who risk camel rides in the morning without bothering to go to bed first. After a few days of this one is either dead or on route.

Drew Pearson's Merry-Go-Round

WASHINGTON (AP)—Hungarian Communist minister to Washington, Imre Nagy, said today that the United States is "a country of the bourgeoisie."
