THE STATE OF OUR REGION'S HEALTH

Editorial Correspondence
RALEIGH—If a note of levity on so serious a topic as the people's health may be pardoned...

IF WE MAY omit for the time being the mass of detailed information on the health needs of the general rural population...

1. If yesterday's meeting of the President's Commission on the Health Needs of the Nation is a fair sample...

2. The big problem of providing adequate medical care for all the people of the nation reduces itself to a series of interrelated problems...

3. By virtually every dependable yardstick, the health needs of the rural farm group measure up greater than those of the urban population...

4. The official record of the day's proceedings will be printed in Washington...

5. The program was arranged by Dr. Clarence Poe, a member of the President's Commission...

6. The program was arranged by Dr. Clarence Poe, a member of the President's Commission...

A WHISK BROOM IS BETTER THAN NOTHING

WE HAD our doubts about the selection of Judge McGraney as Attorney General...

NOW THE FACTS...

IN OUR crystal ball, always kept conveniently on my fireplace and warts on my back...

pital insurance, they cannot afford to use the hospitals that have been built for them.

There is a great need for closer and firmer cooperation among doctors, hospitals, and insurance companies...

7. The special and fast-growing problem of charity hospitalization needs specialized treatment...

BEYOND this broad over-generalized summary of yesterday's session, the close observer found a spirit of enthusiasm and determination among most of the speakers.

The program was arranged by Dr. Clarence Poe, a member of the President's Commission...

Formula For Union Dues

THE following "formula" to reduce the chance of future strikes was sent to me by Alex Galt, publisher of "A Plan for Canada..."

It is probable that North America can not indefinitely meet the demands of the "cold war" and an impoverished Europe...

Companies collecting union dues should collect equal amounts from non-union workers and add this money to the wages of all employees.

Under this arrangement, "take-home-pay" will be equalized, and non-union workers will probably join the union without compulsion...

We've had generals as Presidents before and even all have the ability to clean out the government as the I. W. I. believe we need a general housecleaning in Washington and the only man who can do it.

I don't think that Governor Stevenson has and even all have the ability to clean out the government as the I. W. I. believe we need a general housecleaning in Washington and the only man who can do it.

S.C. Politics Busy Passing Eisenhower Petitions, Bickering

By S. L. LAYTER JR.
In the Atlanta Journal-Constitution
COLUMBIA, S. C.
THE SOUTH-CAROLINA political situation is much confused...

The Democrats are split. By the time the delegates to the re-assembled state convention ordered an electoral ticket...

A few days ago the Young Democrats, whose constitution requires allegiance to the national party, met and split wide open...

But the Democrats hold no monopoly on division. Republican leaders also are split, and their party should be divided...

But D. F. Merrill, who is contesting in the courts the rights of the state to its own election law...

W. K. BOLEMAN
THE contestants in the New York primary race will finish before their warm-ups...
