MATTHEWS WILL GET HIS DAY IN COURT

October.
That is as it should be. Matthews deserves his day in court, just like anybody else; especially, as the "ultra-liberal" American Civil Liberties Union pointed, out, there is some question whether Matthews civil liberties were fully protected when his resignation was accepted by Senator McCarthy. We assume that the Velde Committee will follow its now standard procedure when it!

to fire loose, unsupported charges that seven thousand American Protestant clergymen make up "the largest single group supporting the Communist apparatus in the United States today." And it is utterly contemptible for any one man to presume to set himself up as a judge to pass upon the loyalty of American clergymen as Matthews did.

American clergymen as Matthews did.
What the American people must remember
is that religion is the strongest single bulwark against Communium because it is the
strongest pillar of our democracy; that no
Protestant nation has ever been infiltrated
to any marked degree by Communium; and
that any effort to restrict a clergyman's right
to speak out against social injustice by
branding him as a "leftist" or a "fellow
traviler" is a diabolical scheme by political
reactionaries to frighten the church into conforming to their own tight little definition of
Americanism.

tion was accepted by Senator McCartiny.

We assume that the Veide Committee will be a summed to say marked degree by Communism; and the say that the theory of the say that the theory of the say that the theory of the say that the say that any effort to restrict a clergyman's right to speak out against social injustice by branding him as a "leftiat" or a "fellow traveller" is a diabellical scheme by political reaction and the same to be some the three theory of whatever held the same three that the American derry. Of whatever the same three the same three thr

TAKING MEDICINE TO THE PEOPLE

OLLOWING the example set some months I age by the Fulton County (Ga.) Medical Society, Duke University is taking medicine to the people through a highly useful and interesting series of Medical Town Halls. Two have aircaly been held—one on polio, one on skin disease. Other topics scheduled for the Fall months include rheumatic fever and tuber-culost.

and tuberculosis.
The theory' behind Duke's new program, as utilized by Dr. George Baylin, creator and the programs, is this: "We believe it is one of the best ways to practice reventive medicine. If people know the facts bout disease, many illnesses can be con-

wider audience.
The program cannot but have the most beneficial results, for doctors and patients alike. The facer of disease, stemming large from an ignorance about disease, deters many a patient from seeking medical assets ance until his ill or aliment has reached an advanced stage, making it more difficult in the more d many a patient from seeing meuca assim-ance until his ill or ailment has reached an advanced stage, making it more difficult and far more expensive to cure. The frank, open explanation of medical subjects, coupled with the question-answer part of the Town Halis, should do much to alleviate fear and allay

THE WEATHER?—IT'S REVOLTING

BEWARE, gentlemen—this is the season of revolution. Revolt lurks in that muggy of revolution. Revolt lurks in that muggy air that for several days running has blanketed the Piedmont. Not only in the Old North State but throughout the world, author-ity is toppling as men moy their brow then shout or shoot down the powers that be.

Syngman Rhee rebelled for days, t the U. N., and now even the staid shows signs of rebelling because of

distalty setting off a counter-twoth. Now some folks say that insurrection has its roots in injustice. Falderal and popposed. It's that darn heat, After all, the colonies declared their independence on the Fourth of July, the French made the big break with tyranny on the 14th of the same month. And, because there wasn't any Weather Bureau then with records to dispute us, we'll see that the July 1775, when the Mecklenburgers told George III and his boys to go to hades, was a scorcher.

Just look at what hancemed in Africa.

Just look at what happened in Africa, where it really gets hot. A politician has just been declared eaten by his constituents. Now if that's not revolting, what is?
