NOW THEY'RE SCOT-FREE

DENVER, COLO., July 21—County Judge C. E. Kettering decided today to set aside the death sentence ordered for three Scotties as had been provided in the will of their mistress, Mrs. Ellen R. Webb.

Mrs. Webb, a wealthy widow, requested execution of the dogs to save them grief and unhappiness over her death.

Trust Officer H. E. Parks, who asked that the dogs be spared, declared to the Judge "the dogs are not pinning away."

Weiss Quits 3 Louisiana Jobs

Another Mail Fraud Charge is Voted Against Smith By Associated Press.

NEW ORLEANS, La., July 21—While a federal judge voted another mail fraud indictment to the count against Dr. James Monroe Smith, Daniel Man Seymour Weiss withdrew today from three political positions which helped make him a powerful power in Louisiana.

Weiss, once financial right-hand man to the late Huey P. Long and now under indictment for mail fraud, resigned as president of the Board of Commissioners of the Port of New Orleans and as a member of the New Orleans Police and Fire Boards.

PROFESS INNOCENCE Mayor Robert Maestri, who with Weiss, Gov. Earl K. Long and former Gov. Richard Leche were the "big four" in post-Long Louisiana, said the resignations were accompanied by this explanation: "I am innocent of all charges referred against me, but because I am under indictment I don't want to be a cause of embarrassment to anyone and I am resigning."

Maestri and Long earlier today had indicated they would strive together to keep the political dynasty that Huey Long founded from going to pieces in the storm of receding waters which swept away Dr. Smith.

Harassed by demands for sweeping inquiries and clean-ups, Gov. Long struck a plaintive note in Baton Rouge today when he said: "I am not in a position to do anything at this time and I'm sorry it does not come out the way I want."

SPRINGFIELD, ILL., July 21—President Roosevelt's renomination of Howard L. Doyle of Decatur as United States District Attorney for Southern Illinois today was received here as another indication of increasing harmony in state government.

Doyle, a former State Representative, who became Federal Prosecutor in 1936, had earlier opposed the Horner Democratic faction in the 1936 gubernatorial campaign.

SENATORS SCOTT W. Lucas and James M. Slattery, close friends of the Governor, asserted in Washington yesterday they would not oppose Doyle's confirmation, indicating it would be approved by the Senate.

The District Attorney was secretary to the late Senator James Hamilton Lewis during the latter's first term in Congress. The senator was his sponsor for the Senate primary last year, and Dr. Herman N. Bundesen against Doyle's confirmation.

Both Senators Lucas and Slattery confers with the Governor on a visit here about Doyle's reappointment.

The District Attorney supported Michael Igo against Lucas, who was defeated in the gubernatorial primary last year, and Dr. Herman N. Bundesen against Doyle's confirmation.

Doyle is a close friend of Lieut. Gov. John B. Starnes, who has been aligned with the Kelly-Nash forces against the Democratic party.

NO DECISION ON ROE Still unsettled is the future of Arthur Roe, Vandallia, District Attorney for Eastern Illinois.

The Lucas-Slattery statement in Washington yesterday said the job of Governor Bessie Coleman and Democrats here held the view Roe might be retained by a man from the Horner camp.

Miss Doyle, Roe, a former Speaker of the Illinois House was aligned with Kelly-Nash Democrats in the 1936 gubernatorial campaign.

WPA officials, checking employment records, discovered Connolly came under the new federal law forcing all persons on the rolls for 18 consecutive months to take at least a 30-day furlough.

BASEBALL PICKETS Promised Park By Associated Press.

ST. LOUIS, S. D., July 21—The 14-year-old came to grips with the law today when they picketed the home of Mr. Ralph Bailey, but it looks as though they may score early in their baseball "strike."

Police said the group had been using the street near the Bailey home as a playground, and Mrs. Bailey on occasion had notified officers of youngsters' pranks.

When officers responded to a call today they found a dozen youngsters, each carrying a sign with such signs as these: "My father unfair to kids playing ball."

Police, Bailey calls the cops every time we play. "Unfair to organized boys." "This sign says we're taking a furlough."

Officers confiscated the placards and took the boys' dissent to court, where they were into conference with Mayor John T. McCarty. The Mayor came out of the bundle with an announcement that he had arranged for a playground.

City Asks Property Owners Buy Trees

Property owners throughout the city will be asked in a few days to join in a tree-planting program, under which the city will purchase \$1.75 each for young 14-foot trees...

Baumann said sycamores, elm saplings will be planted in front of homes to conform with trees already growing. A survey has shown that about 120,000 additional trees are needed along the city streets, he said.

Dealers will buy trees from the city, which will purchase them on a large scale.

Kubs Garden Open to Public Tomorrow The ravine and rock garden on the 300-acre estate of Edward L. Kubs on Spanish Lake road in St. Louis County will be open to the public all day tomorrow.

Last year 12,000 persons visited the garden on visitors' days and tomorrow Kubs has made arrangements with the highway patrol officers to direct traffic to prevent congestion. The garden overlooks the Missouri River and the outstanding feature of the design is the ravine which Kubs has landscaped himself.

NEW ORLEANS contractor. The men were accused of obtaining \$14,196 from the State University in 1938, ostensibly to buy taxes on the federal Hotel here, although the university has not paid a cent.

This indictment brought to 13 the charges against Smith and raised his total to \$29,000.

Federal Judge Wayne Borah rendered today Smith's petition to be allowed to make bond in the federal cases and he returned to jail at Baton Rouge. The court overruled the educator's plea he was being "harassed" by federal agents seeking confessions.

Threaten Bitter Rail Bill Fight

House Group Charges Measure Will Add Transportation Cost By Associated Press.

WASHINGTON, July 21.—A long-winded battle over legislation designed to provide uniform regulation for rail, motor and waterway transportation started on the House floor today and threatened to add several days to the waning session of Congress.

Militant opponents of a provision which would place certain water carriers under the jurisdiction of the Interstate Commerce Commission signified their intention of talking against the proposal as long as possible.

Representative Warren of North Carolina, leader of the House Steering Committee opposing the waterways section, opened the offensive with a declaration that the bill represented an "outrageous sell-out" of the nation's producers and consumers.

It is his sole purpose, he declared, was to lift water transportation rates to a practical parity with rail charges. Members from widely scattered sections echoed Warren's charges.

Chairman Len of California, of the House Interstate Commerce Committee, which drafted the bill, replied that it was intended to provide the same type of regulation for water carriers as is now imposed on railroads.

Asserting that President Roosevelt supported the measure, Len told the House the bill would provide a "rounded-out" system of regulation for all forms of transportation except aircraft, already regulated by the Civil Aeronautics Authority.

Representative Smith said at Hyde Park, N. Y., today that he wanted the House to act on the measure.

What the transportation agencies of this country need is an "empire" Len said, "and that's what this bill would give them."

The Senate already has enacted a widely different bill, a fact which impelled many members to express doubt that the legislation would reach the White House at this session.

Numerous legislators who expressed doubt that the legislation would reach the White House at this session, contended the bill will be "entirely rewritten" by the Senate and House Conference Committees try to work out a compromise. On that ground, several members advocated that the House defer action until next year.

COOL, AIR-CONDITIONED Models Will Parade Here Today! See 1940 in Fur!

DRESSES To Take You Straight Into Fall \$16.95 Cool, dark and handsome types that you'll put on right now and look the picture of a fashionable young sophisticate.

Record Crowd of 10,631 Sees Opera

An all-time attendance record was set at the Municipal Opera night when 10,631 persons saw the performance of "Pierrot." Officials said it was the highest attendance in the 21 years of the Municipal Opera's history.

Extra chairs had been placed near the orchestra pit to accommodate the crowd and many sat on the lawn or stood along the sidewalks in the rain.

Groups attending last night's performance included the St. Louis Water Exchange, a group from the St. Peter Drive Good Company, a group from Alton, from German town, Ill., and the Rainbow Girls.
