Reinsurance Program

Ike Boosts His Health Plan

By MARVIN L. ARROWSMITH
NEW YORK (AP)—President Eisenhower, winding up a two-day visit to New York, has sounded new appeals for enactment of his health reinsurance program and for election of another Republican Congress.

In the final address of his New York visit, the chief executive declared last night his program for expansion of the nation's voluntary health insurance plans, piloted by the Republican-controlled Congress last July 13, is "the logical alternative to socialized medicine."

Speaking to 2,000 persons, who paid \$100 each to charity at the annual Alfred E. Smith Memorial Foundation Dinner at the Waldorf-Astoria Hotel, Eisenhower said the program will be resubmitted to the new Congress convening in January.

FURTHER STEP

"We know that the American people will not be denied access to adequate medical facilities," he said. "The program for voluntary health insurance is one further step in achieving this objective in the American way."

Under the program the government would underwrite up to 75 per cent of the losses suffered by private and nonprofit insurance firms as a result of voluntary expansion of their health and medical programs.

The President will pick up the political trail again tomorrow at an outdoor luncheon at his Gettysburg, Pa., farm to promote the candidacies of Pennsylvania Republicans seeking congressional seats and state office.

Yesterday Eisenhower spent much of the day plugging in behalf of a GOP victory at the polls.

Ex-Arkansas Governor Raps 'Power Monopoly'

WASHINGTON (AP)—Former Gov. Sidney McMath testified today that what he termed the "power monopoly" tries to "crush" any elective officer in Arkansas who recognizes "there is a people's side to any conflict" with the power interests.

In the witness chair of the Senate Antimonopoly subcommittee, McMath said the Arkansas Power & Light Co. offered to support him for a third term as governor in 1952 if he would oppose construction of a steam power generating plant by a group of cooperatives under the Rural Electrification Administration.

"I was told if I supported the Ozark (REA) plant, the power interests would use every means at their command to destroy me politically," he said.

McMath's bid for a third term was defeated in the 1952 Democratic primary. The present Gov. Frank Cherry was the winner in a runoff.

The Senate subcommittee called McMath as a witness in its inquiry into the Eisenhower administration's proposed contract with the

Soviet, West Agree On Step Toward Talks

Disarmament Plan Resolution Approved

By A. I. GOLDBERG
UNITED NATIONS, N.Y. (AP)—Russia and the big Western Powers reached agreement early today on the language of a resolution to set up new disarmament talks, U.N. sources reported.

In more than a week of dickering with the Russians, Canada as the principal agent sought accord on these principles:

1. The Disarmament Commission will authorize Britain, France, the United States, Canada, and the Soviet Union to hold closed door meetings similar to the ones they held in London last summer.
2. The commission will consider all disarmament plans which have been placed before it, including the British-French compromise, the Soviet agreement to delay atomic tests until a new way is found to control agency, and Indian proposals covering a number of angles of disarmament.

SPENDER TAKES FLOOR

Report of the new accord came as Sir Percy Spender, Australian ambassador to the United States, took the floor in the U.S. Assembly Political committee and proposed an objective survey of East-West differences on disarmament as the first step toward setting up the new talks. He suggested the talks not begin until after the Assembly ends its current session in mid-December.

Another Grassroots Report

Jersey May 'Sit This'n Out'

By SAMUEL LUBELL
Among all the Senate contests, the battle now raging in New Jersey must be considered in a class by itself.

For one thing, New Jersey is the only state I have visited thus far in the campaign where people have complained, "Why do they spread so much dirt? Can't they bring out the good things about the candidates?"

Then, with stable "sit it out" protest movements under way against both the Democratic and Republican candidates, the election outcome seems likely to hinge less on who votes than on who will not vote.

This tendency to "pass up the election" is likely to be deepened somewhat by the allegations of "leftist sympathies" raised against the sister of Clifford P. Case, the GOP candidate. Before these charges were raised, my talks with voters in half a dozen key New Jersey communities showed that the anti-Case revolt among Republicans had been losing steam as many of them came to realize that Case's defeat could cost the GOP control of the Senate.

I was in Teaneck, a typical North Jersey suburb, the day Case made his television defense of his sister as having participated in a left-wing study group some years ago but as not being the Adelaide Case, a much older woman, who was active in Communist-front agitations.

When I asked him an elderly man was pruned tree branches on his front lawn.

"The only reason I'd vote for Case," he told me, "is to back Eisenhower. He's been a fine President. But they say this Case is a leftist underneath. This sister business—if there's anything to that—those things run in families."

When I asked him for a drink of water, he invited me into his house. Case was just finishing his speech as we came in.

France Holds Out For Saar Agreement

Ex-Foe Welcomed Into Defense Group

PARIS (AP)—With the threat of complete failure of French-German talks on the Saar overshadowing their decision, the 14 members of the North Atlantic Treaty Organization today invited West Germany to join their alliance.

French Premier Pierre Mendès-France joined in the invitation. Earlier he told reporters he will sign any agreement reached here this week unless he gets a satisfactory settlement of the Saar dispute.

As the NATO council voted, French and West German negotiations were reported still deadlocked.

West German Chancellor Konrad Adenauer, an invited guest at the council session, sat in beaming silence as one after another of the foreign ministers welcomed him and approved West Germany's admission as the alliance's 15th full member. As all NATO council actions must be, the decision was unanimous.

British Foreign Secretary Sir Anthony Eden commended U.S. Secretary of State John Foster Dulles for his American policy of getting the Germans into NATO. Dulles commented that this step would "help achieve a solution of European problems."

DANISH COMMENT

Danish Foreign Minister H. C. Hansen said his countrymen were "very glad to have their neighbor" in the organization. He remarked there is a Danish minority in Germany and he said he hoped these people will be treated with consideration. Norway's Halvard Lange rose to associate himself with this comment, according to a person who was present.

Mendes-France made his statement concerning the Saar with the full backing of his Cabinet, which a few moments before had unanimously endorsed his policy and actions in the conferences here.

His statement, in effect, set a 24-hour deadline for France and West Germany to come to terms over the future status of the tiny frontier area, which is wealthy in coal and steel.

They have been made for the signing tomorrow afternoon of accords to restore West German sovereignty and enlist the Germans as a full partner in the Western defense system.

McCarthyism Crept Into Their Senate Race. (AP Wirephoto).

"What did Case say?" the man asked his wife.

She replied, "He said the woman they wrote about was not his sister but that his sister did belong to some organization years ago."

Other voters whom I talked with were equally skeptical.

WHAT'S INSIDE

A DEVELOPER NEEDS AN OFFICE
Hurricane Hazel left many strange pictures for a photographer. On the left these workmen relax at luncheon. Their job is to clear the debris. Center photo was taken on a main street of Cherry Grove. Five blocks back is Frank Bue's grocery store at Cherry Grove.

Troops To Leave Beaches Sunday

RALEIGH (AP)—National Guard units assisting coastal communities devastated by Hurricane Hazel will be called off active duty Sunday, Gov. Umstead's office said today.

Ed Rankin, the governor's private secretary, said the beach towns should be able by then to take over police duties and other tasks performed by the Guardsmen. Eleven Guard units were on active duty in the hurricane disaster area at one time.

Rankin also announced that Gov. Umstead has named S. Bunn Frink, Southport attorney and former state senator, as a member of the North Carolina Hurricane Disaster Committee. Frink will represent Brunswick County, one of the sections hardest hit by the storm last Friday.

Evening Prayer

Gracious God and Father, we pray that Thou wilt help us in the tasks of each day to think of Thee as one who wishes to identify Himself with us. Give us the strength and joy of Thy presence in emergency fund, but Rankin said available to relieve suffering if there is a possibility the state will be a hurricane victim.

WHAT'S INSIDE

WASHINGTON (AP)—President Eisenhower today allocated \$55,000 to supplement state and local relief efforts in North Carolina areas hard hit by Hurricane Hazel.

The White House announced Sunday that federal funds as needed would be made available to disaster areas in South Carolina, North Carolina and Maryland.

In a telegram to North Carolina Gov. William B. Umstead, Eisenhower said the money would be available to relieve suffering if there is a possibility the state will be a hurricane victim.

WHAT'S INSIDE

MIAMI, Fla. (AP)—The Weather Bureau reported an "All clear" on its storm map today.

A Navy hurricane-hunter plane explored a suspicious area in the western Caribbean yesterday and found rain and thunderstorms but no tropical disturbances.

Walter R. Davis, acting chief storm forecaster, said a high pressure system which has given the eastern half of the country ideal autumn weather extends into the Caribbean.
