## On McCarthy Compromise

# Decision Sought By Monday

By JACK BELL  
WASHINGTON (AP)—Republican leaders reportedly set a Monday target date for efforts to focus a compromise resolution against Sen. McCarthy (R-Wis.).

Monday was the day specified by an influential GOP senator who, asking to remain anonymous, said in an interview that unless McCarthy and his friends can agree by then on a compromise resolution "it won't be much use to try any further."

So far, this senator added, McCarthy himself has not agreed to a proposed watered-down alternative to the direct censure recommendation now before the Senate.

The Senate itself was in recess over the weekend after a session yesterday which saw McCarthy assailed as a spreader of "slush and slime" and defended as "the strongest voice now speaking out in America against communism."

During the debate Sen. Knowland of California, the Republican floor leader, seemed to be laying the groundwork for a possible Senate resolution unanimously proposed by the special committee headed by Sen. Watkins (R-Utah). Knowland said that while he had implicit faith in the six-man bipartisan committee, that did not mean the GOP's recommendation should be accepted without change.

The GOP senator interviewed to-day said that one suggested compromise, so far as he knew, was that McCarthy might declare that while McCarthy's actions had been "in temperate and indiscreet" on some occasions, he had helped in showing "penetration of key government agencies" by Communists.

This version of the compromise would strike out all reference to censure or condemnation of McCarthy himself, a move his backers are not sure could command the necessary majority vote.

However, Sen. Aiken (R-Vt.), said in an interview he believes "some senators might be willing to censure or condemn acts which are unwilling to vote against Sen. McCarthy personally."

The Watkins committee has recommended that McCarthy be "continued" for his alleged "contemptuous" treatment of an elections subcommittee which investigated his finances in 1951-52. The group asked that he be censured for "repeated abuse" of Brig. Gen. Ralph W. Zwicker, a witness before McCarthy's investigations subcommittee earlier this year.

Sen. Dirksen (R-Ill.), a backseat leader of compromise moves, offered comment. But it was clear he had urged McCarthy's friends.

## OUR WEATHER

Clear and cool today. Fair and colder tonight. Sunday, fair and slightly warmer.

Low temperature this morning 45 degrees.

Low temperature expected tonight 42 degrees.

High temperature expected today 75 degrees.

High temperature expected tomorrow 69 degrees.

High temperature expected tomorrow 63 degrees.

Sunrise 6:53 a.m.; sunset 5:18 p.m.

## Losing Gambler Kills Wife, 3 Children, Self

SALINA, Kan. (AP)—"Those thieves have robbed me out of several thousand dollars, so chief of police stop that crooked and wicked poker game," wrote Roy Henry, 38, unemployed truck driver.

Chief of Police Henry R. Salmons had been expecting the letter. Henry and his wife and three small children had been found shot to death earlier.

to temper their language in discussing the censure issue in the hope that chances for a compromise would not go up in the smoke of debate.

McCarthy himself flew to Wisconsin to accept an award from the Young Republican Women of that state today.

## Committee Stamps Okay On Contract

### Action Is Victory For Administration

WASHINGTON (AP)—Overriding Democratic protests, the Senate Atomic Energy Committee voted today for an immediate go-ahead on the controversial Dixon-Yates power project.

The vote was 10-8, following straight party lines with Republicans solidly backing the administration. The decision was by President Eisenhower, who had urged the speedup so that construction could begin as soon as possible.

The effect of the committee decision is to permit the Dixon-Yates private utility group to proceed at once with final plans without waiting until 30 days after the incoming Democratic controlled 84th Congress meets.

Under the contract, the Dixon-Yates group is to build a 107-million dollar steam generating plant at West Memphis, Ark.

The plant would feed electricity into the lines of the Tennessee Valley Authority (TVA) to replace power supplied by TVA for atomic plants in Paducah, Ky., and elsewhere.

NEED SEC APPROVAL  
Before actual work can be started, Dixon-Yates must obtain SEC approval on financing plans involving issuance of bonds and stock for the company which will be set up to handle the actual operations.

The committee's vote today waived a requirement of the Atomic Energy Law for a 30 day waiting period while Congress is in session. The delay, if it had been enforced, would have laid the contract over for consideration by the Democratic-controlled 84th Congress meeting in January.

The committee vote was delayed for a time when the committee agreed to reopen public hearings for testimony by Sen. Kefauver (D-Tenn.), a foe of the project.

Kefauver labeled the contract "dishonest," "fantastic" and "untruthful."

He predicted the contract would be involved in litigation for interpretation "time and time again."

But when he finished, the committee returned to executive session and gave its approval to the plan.

At a late session last night, Acting Comptroller General Frank H. Weitzel testified he didn't feel it was in the province of the General Accounting Office to make recommendations for or against a waiver.

CRITICAL EYE  
The GAO keeps a critical eye for Congress on government spending.

Weitzel testified that GAO's major objections had been met by contract changes in the last week, and he said, "We definitely feel that many improvements have been made in this contract in the interests of the government." But he added:

"We were not the negotiators, and I can't say whether we would not have signed the contract."

White won \$100 for the best picture, which he gave to the Red Cross. (AP Wirephoto)

## Soviet Asks Conference On Europe

MOSCOW (AP)—The Soviet government today proposed holding a conference on European security either in Moscow or Paris on Nov. 28.

A Soviet note was sent to the French government today making this proposal. Copies were sent to other interested governments, including the United States. Communist China was asked to send observers.

The new Soviet note was abruptly aimed at delaying or preventing ratification of the Paris pact granting sovereignty to West Germany and granting that country the right to rearm.

It follows the month-old Soviet idea of a security system embracing all European countries as well as the United States. This organization would replace the systems of defense alliances which the West has laboriously built up and would specifically ban the integration of a rearmend West Germany in the system.

The United Kingdom was among the countries invited.

Copies of the note were handed to correspondents at a news conference in the Soviet Foreign Ministry conducted by press chief Leonid F. Ilyichev. The note will be broadcast tomorrow and published in tomorrow's Moscow newspapers.

It was released while representatives of the Western Big Three were meeting in London to draft an answer to an earlier Soviet proposal for a Big Four meeting on Germany.

The note said its purpose was "to prevent the complication of the situation in Europe which in the past has been caused by the danger of war."

Therefore, the note declared: "All measures must be undertaken which will be in the interest of peace."

## Governors Reject School Proposal

By HENDRIX CHANDLER  
BOCA RATON, Fla. (AP)—The Southern Governors' Conference Resolutions Committee today rejected a proposal for a constitutional amendment to maintain separate but equal school facilities for the races.

Acting Gov. Charles E. Johns of Florida, who proposed the resolution, said he would make no further efforts to bring up the matter at the final conference session after this afternoon.

Thus, the three-day conference headed toward adjournment without having taken any formal action on the U. S. Supreme Court decision outlawing segregated public schools.

MCKELDEN OPPOSES  
Gov. Theodore R. McKeldin of Maryland, a member of the Resolutions Committee, handed news men a statement after the committee's executive session in which he said it was his opinion that it was the duty of every citizen to accept the Supreme Court decision regardless of his own opinion of the case.

See AMENDMENT

"Any other course would undermine the very foundations of law and order," McKeldin said.

The Maryland governor said the proper procedure was for the states to file briefs with the Supreme Court at a hearing set for Dec. 6 on how and when desegregation should be ordered into effect.

The conference was to adjourn this afternoon after formally electing Gov. Lawrence W. Wetherby of Kentucky as chairman and adopting a batch of resolutions dealing with various subjects.

Johns had appeared at the resolution committee not to let the conference adjourn without taking some action on the segregation matter.

Johns told the committee that if it didn't like his suggestion it should revise the resolution or propose something better.

The seven committee members who considered Johns' resolution were Govs. Allen Shivers of Texas, Lawrence W. Wetherby of Kentucky and McKeldin.

## Red Airmen Praised For 'Vigilance'

MOSCOW (AP)—The Soviet army newspaper Red Star called upon Soviet soldiers and airmen today to increase their vigilance against "imperialist intelligence services" to learn our military and government secrets in order to undermine our country's defenses.

The half-page article cited as an example of praiseworthy vigilance the shooting down by Soviet MIG fighters of an American B29 reconnaissance plane last Sunday off the northeast tip of Japan.

"The successes of the Soviet people in building communism, and the achievements of all people of our democratic camp, make the capitalists angry," Red Star said.

"Staging subversive activities against the Soviet state, the imperialist intelligence services try to strike first to let our military and government secrets in order to undermine our country's defensive capacity and damage the fighting efficiency of our armed forces."

But our fliers are dealing decisive blows to those who violate our air frontiers, thanks to the fact that they are always in a state of combat readiness and are vigilant. As an example of such high degree of vigilance we point to the recent case when an American B29 (sic) was the subject of protest notes exchanged between the United States and the Soviet Union. Each blamed the other."

The article, signed by Lt. Col. V. Velichko, continued:

"For subversive work in our country foreign intelligence services have frequently used agents who mask themselves as newspaper correspondents or tourists and the intelligence services also try to send their spies into our country secretly through our land, naval and air frontiers."

The article mentioned no names of correspondents or other suspected agents, but cited cases of suspicious strangers found recently near Russian air fields.

## EVENING PRAYER

Teach us, O Lord, to serve Thee as Thou deservest; to give and not count the cost; to labor and not ask any reward save that of knowing we are Thine; through Jesus Christ our Lord, Amen.

## TWO PASSENGERS

LOS ANGELES (AP)—The U. S. State Department will send two men to Scandinavia aboard the Scandinavian Airlines System's eastbound inaugural flight from here to Copenhagen next Monday, the SAS has announced.

## Fred Snite Dead After 18 Years In Iron Lung

MIAMI BEACH, Fla. (AP)—Fred B. Snite Jr., 44, the famed "Boiler Kid" whom infantile paralysis doomed to an iron lung more than 18 years ago, is dead.

The plucky young man whose fight against the disease made him known throughout the world died in a West Palm Beach hotel yesterday. He had gone to that city from his Miami Beach home the day before to compete in the Florida State Bridge Championships.

He went to sleep after breakfast because, he told attendants, "we want to be able to play a good game of bridge this afternoon." He never awakened.

Doctors believe the "incessant pumping of heart against machine" in a machine against heart failure, the father added. "As a result of his long stay in the iron lung, his veins were no bigger than the eye of a needle."

The Snite family had come from Chicago only last Sunday to spend the winter here.

"Fred had an ulcer which his heredity all the way down," his
