Rotogravure To Tell The Charlotte Story

On next Tuesday, Dec. 7, The Charlotte News will distribute a handsome 72-page rotogravure magazine entitled:

A Good Place To Live

A Good Place To Do Business.

The publication is designed as a catalogue of the best features of Charlotte and is intended primarily for distribution over the United States rather than for home-consumption. More than 10,000 copies will be mailed to a carefully selected list of executives of manufacturing concerns, banks and other businesses. A thousand copies are to be distributed by the Home Builders Association of Charlotte at the January convention in Chicago of the National Association of Home Builders, largest convention in the world. Another 1,000 copies will go to the Chamber of Commerce for its own use, and The News is sending an additional 500 copies to national advertising agencies.

The primary purpose of the magazine is to spread the name and fame of Charlotte throughout the country, and with that in mind its news content will be largely pictorial, with a minimum of text. Its advertising content, too, is intended to help to tell the story of a thriving, growing city, a good place to do business. Not since 1940, when The News issued a brochure to celebrate Charlotte's arrival in the 100,000-population class, has anything similar been attempted. The 1954 publication, using the costly and high-fidelity medium of rotogravure, is much more ambitious in concept than was the 1940 booklet and considerably wider in its distribution.

The magazine will be inserted in all home-delivered copies of The News next Tuesday, some 70,000 copies, along with a mail-order envelope, its cover carrying a reproduction of the cover of the magazine, its title and mailing instructions. Readers of The News, after they have looked over the publication, are urged to mail the magazine to a business or personal acquaintance elsewhere and by this means to abet publicizing of the city and its advantages.

"Charlotte—A Good Place To Live and A Good Place To Do Business" has been months in preparation by a special staff consisting of Haywood Trotter, news director, Mrs. Hazel M. Trotter, advertising director, and Kenneth Whitsett, art director. The four-color front cover is a water color by artist Whitsett of the midtown business district.

The magazine was printed by The Art Gravure Corporation.

Senate Members Blast McCarthy For Conduct

Du Ponts Ruled Not Guilty Of Monopoly

Judge Dismisses Anti-Trust Suit

CHICAGO (AP)—U. S. Dist. Judge Walter J. Labuy today dismissed the government's civil anti-trust suit against the duPont interests, General Motors Corp. and the United States Rubber Co.

Judge Labuy held that the government had "failed to prove conspiracy, monopolization, a restraint of trade, or any reasonable probability of a restraint."

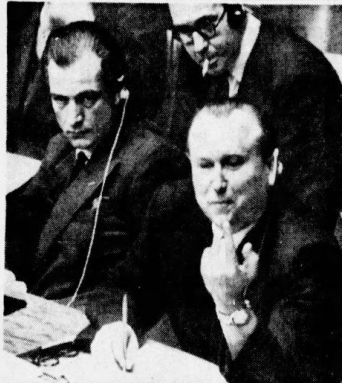

The judge held, "There has been no conspiracy to restrain or to monopolize trade, and no restriction or monopolization of the market."

"The essence of the conspiracy and restraint which the government charged and sought to prove in this case is the alleged illegal limitation on General Motors' ability to deal as it pleased with competitors of Du Pont and United States Rubber."

Labuy's opinion said, "The court finds that there has not been, nor is there at present, a conspiracy to restrain or to monopolize trade, and no limitation or restraint upon General Motors' freedom to deal with competitors of Du Pont and United States Rubber."

He continued, "There is no limitation or restraint upon the freedom of General Motors to deal with its chemical discoveries, no restraint or monopolization of the general market, no restraint or monopolization of the trade and commerce between Du Pont and United States Rubber."

The government has described the action as the biggest anti-trust case U. S. history.

U. S. Presses For U. N. Help Aid Asked In Freeing Fliers

By TOM HOGE

UNITED NATIONS, N. Y. (AP)—The United States pressed today for U. N. action to free 11 American airmen jailed by Red China in violation of the Geneva Convention on the treatment of prisoners of war.

U. S. Chief Delegate Henry Cabot Lodge Jr. after a high-level meeting in Washington, called the Allies into emergency session last night to discuss the speedy course of action. He voiced confidence the U. N. would support any move the Americans might decide on.

President Eisenhower told newsmen in Washington yesterday he did not see "how the United Nations can possibly disabuse itself of a feeling of responsibility in this matter, and retain its self-respect." Similar views have been expressed by congressmen. The airmen flew under U. N. colors.

Informed sources said Eisenhower may underscore his interest in the case by sending Secretary of State Dulles here to take a personal meeting with the Allies.

Lodge told newsmen: "We are going to act to do everything we can to keep faith with these men. They are U. N. men as well as U. S. men. This organization can't go on if it does not stand by people pointed at by its news conference yesterday. He said his private secretary, Edward Rankin, would continue to direct operations in the office. Johnston will handle legal matters plus some research. His salary will be in the neighborhood of \$7,500 per year.

The administrative assistant's post was created by former Gov. Rear Scott but was allowed to lapse by the late Gov. William B. Umstead.

The governor also told newsmen committee working on an allocation formula for 25 million dollars in state school building funds has come to agreement on a number of principles. He also commented on a forthcoming meeting about the condition of the Pope's ecclesiastical chairman will be held in New Orleans.

The 1955 Legislative appropriation of 50 million dollars for school building. Twenty-five million was distributed under a definite formula. The other half, said the legislature, should be divided on the basis of need and effort made to meet the need. It directed the State Board of Education to prepare a formula which would be subject to the governor's approval.

The governor commented that the board would favor withholding allocation of the 25 million "for the time being," he stated he has not had time to study the principles of which the State Board of Education study committee has agreed.

SEN. BENNETT The Bill Is Not Great for his actions, and the fourth in Senate history.

Langer Blocks Confirmation Of Harlan

WASHINGTON (AP)—The Senate confirmed a flock of President Eisenhower's noncontroversial nominations last night before quitting work until next month.

But Sen. Langer (R-ND) announced he would fight the nomination of U. S. Circuit Judge John Marshall Harlan of New York to the Supreme Court next year. Langer, now chairman of the Senate Judiciary Committee, will become ranking Republican member of that group when the Democrats take over in January.

One of the Senate's last acts of the session was confirmation of a host of ambassadors, federal judges, attorneys and marshals. It approved more than 10,000 promotions in the armed services and hundreds of similar upgrades in the public health and foreign services.

Major nominations confirmed included Dr. Willard P. Lillibridge, a University of Chicago scientist, as a member of the Atomic Energy Commission. Sen. Kefauver (D-Tenn.) announced he was dropping his opposition and confirmation followed.

Among others approved were: Carter L. Burgess of South Carolina as assistant secretary of Defense; David S. Smith of Connecticut as assistant secretary of the Air Force; Christian A. Herter of Massachusetts as general counsel of the Foreign Operations Administration.

Witness Killed In Phenix City

By REX THOMAS

PHENIX CITY, Ala. (AP)—A witness who may have seen A. L. Patterson's killer was knifed to death last night after making urgent telephone calls to the sheriff and the newly elected attorney general, Patterson's son.

Johnnie F. Griffin, 35-year-old Phenix City cafe employee, was stabbed in the throat 24 hours or more after he had testified before an emergency grand jury which is considering murder indictments in the Patterson killing.

National Guardsmen still patrolling the city five months after Patterson's death arrested a 16-year-old Negro and said he admitted the stabbing, blaming the white man for provoking a fight.

Col. James N. Brown, military chief of police, said there appeared to be no connection between Griffin and his appearance before the grand jury Wednesday.

Another officer, Lt. Charles Cook, quoted the Negro, Jerry C. Washington, as saying Griffin had him during an argument on the street and that he slashed back with a knife. Washington was taken into custody four hours later at his home.

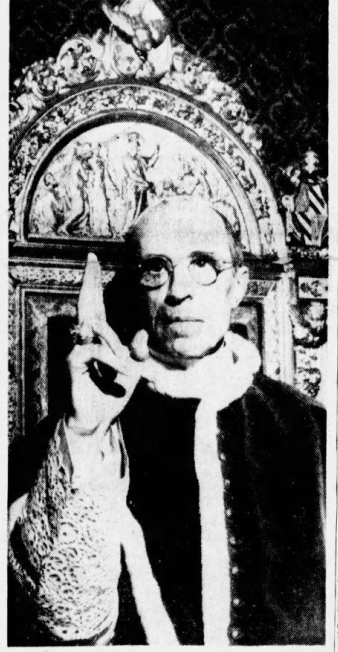

But John Patterson, who he left arm and abdomen. A splinter puncture was made. Dr. Steve said, and the specialist's report for that day carried the notation: "Indication of a cervical spinal cord contusion."

Catholics Join In Prayer For Pope's Recovery

By STAN SWINTON

VATICAN CITY (AP)—The Vatican called the Pope's condition satisfactory today, but renewed anxiety for his life was emphasized in reports on the severity and range of his ailments.

Roman Catholics throughout the world were joined in prayers for recovery of Pope Pius XII. His closest assistant, Mgr. Giovanni Baista Montini, went to his bedside in the Vatican palace.

The Vatican disclosed officially that the 78-year-old pontiff had received treatment for "peritoneal irritation attended by abdominal tension." This condition is an irritation of the lining to the abdominal cavity. It reflected the Pope's long struggle against a gastric disorder accompanied by spells of hiccuping and nausea.

The bulletin of the Pope's physician, Dr. Riccardo Galeazzi-Lisi, said X-ray and clinical examination made yesterday afternoon showed nothing alarming. Vatican sources said privately that ailment was a complicating factor. There were conflicting reports about the condition of the Pope's heart, but it was emphasized that he came through the night "relatively tranquilly."

OUR WEATHER

Sunny today and rather cold and fair tonight. Tomorrow, fair and a little warmer in the afternoon.

Low temperature this morning 28 degrees.

Low temperature expected tonight 28 degrees.

High temperature yesterday 51 degrees.

High temperature expected today 50 degrees.

High temperature expected tomorrow 58 degrees.

Sunrise 7:14 a.m.; sunset 5:11 p.m.

Brother Continues Testimony

By RELMAN MORIN

CLEVELAND (AP)—Dr. Samuel Sheppard's physical condition deteriorated over several days after he was taken to the hospital, his brother testified today for the defense.

"He was worse on Monday," Dr. Stephen Sheppard told the jury. The defense is building its contention that the handsome osteopath was injured seriously in the fight he claims he had with a mysterious attacker who killed his wife, Marilyn. She was slain in the early hours of Sunday, July 4.

Sheppard's Condition Grew Worse

Dr. Steve said that a day after Dr. Sam was admitted to the hospital, the swelling on his face had increased, and that he lost control of his natural functions.

"What did this loss of control of the natural processes indicate to you?" chief defense counsel William J. Corrigan asked the witness.

"I indicated an injury to the spinal cord," the witness replied. He said his suspicion of a spinal injury was shared by a brain surgeon who had called July 4 when Dr. Sam was first admitted to the hospital.

Dr. Steve said the specialist also found an absence of reflexes in both the left arm and abdomen. A splinter puncture was made. Dr. Steve said, and the specialist's report for that day carried the notation: "Indication of a cervical spinal cord contusion."

Last Monday, Dr. E. Richard Heister, a physician testifying for the state, said he found no serious injury to the defendant. The prosecution has suggested Dr. Sam's change in him was tremendous.
