8 Of 18 Rescued Plane Ditches Near China

HONG KONG (AP)—A British airliner with one of its four engines afire crashed today near the Chinese Communist island of Hainan and 8 of 18 aboard were rescued.

The body of a Chinese woman passenger was taken from the waters of the South China Sea. Witnesses on another plane said Communist boats swarming out from Hainan picked up three survivors. But the fate of the missing was in doubt.

A report from Singapore saying three survivors had been picked up by a British flying boat proved erroneous.

The British Skystraker sank within a minute after it struck the waters.

Three of those rescued were Americans, but three other Americans, all from one family, were among the missing.

DIVER PITCHES CAMP ON BOTTOM OF SEA

MIAMI, Fla.—Diver Ed Fisher was well on his way today to becoming the first man to spend 25 hours under water in a diving suit.

Fisher, Miami, camped overnight on the ocean floor off Key Largo. He planned to come to the surface at 3 p.m. (EST).

He went 30 feet down to the floor of a coral canyon at that hour yesterday. A team of assistants took fresh tanks of air to him every hour.

He wore a rubber suit to contain body heat during the night. The suit has no hose leading to the surface. Fisher walked around, lay down and at times squatted as big fish eyed him curiously.

Two boats, the 55-foot Vagabond and the 38-foot Three Royals anchored about 100 feet from the "camp" on the ocean bed. Helicopters above the craft watched him during the night by use of battery lanterns just under the surface and on the ocean floor.

Fisher carried a hammock for sleeping, a hot water bottle with fish soup and a spear gun. Sharks and barracuda swam about the area.

His purpose was to test a newly-invented, self-contained diving suit.

Fisher had fish for breakfast today. His face mask covers the eyes and nose but leaves his mouth free. To eat he just removes an air tube long enough to take a bite of food.

Hotel Slaying Suspect Seized

ST. LOUIS (AP)—The St. Louis county sheriff's office announced a Texas wanted in the "dresser drawer" slaying of a girl at Indianapolis was arrested shortly before noon today.

The sheriff's office said the man, who identified himself as Victor Lively, 32, was picked up by a deputy on U. S. Highway 88 near here.

He was taken to the sheriff's office in suburban Clayton where Sheriff Arthur Mosley questioned him about the slaying of Dorothy Pore, 18.

Police in Indianapolis said they are convinced Lively is the "Jack O'Shea" in whose hotel room a \$200 money bag which was wrapped in newspapers. He was walking west on the highway.

The deputies recognized him, they said, by descriptions of the yellow sports shirt and blue trousers he was wearing.

At the sheriff's office, Lively made no statement immediately. Officers said he wouldn't say whether he had been in Indianapolis.

The two deputies said that when they stopped Lively and asked for his identification papers, he told them he had lost his papers. They placed him under arrest when he told them his name was Victor Lively. He offered no resistance.

Father Thinks Miami Pervert Killed Child

BALTIMORE (AP)—James T. Roberts' Baltimore attorney whose 1-year-old daughter was kidnapped and slain two weeks ago in Miami, said today he is confident her killer will be found "among their own pet pervers in Miami who are treated so tenderly."

The Baltimore News-Post said an arrest here in the case is expected within the next 24 hours and reported a search is under way for a man who was questioned several days ago and then disappeared.

Roberts issued a written statement from his office here after two Miami investigators said an interview they had given up on the little Judith Ann Roberts.

William K. McCrorey and Earl Veno, sheriff's deputies from Miami, expressed the belief the little girl was kidnapped for ransom and slain when something went wrong with the plot.

"They said they were proceeding in the assumption Judith Ann was taken by someone who might recognize and someone who was familiar with the family and the Miami home of her maternal grandparents, Mr. and Mrs. Harry Rosenberg.

The two Miami officers have been in Baltimore six days, seeking new leads. They have talked to more than 200 persons and questioned 53 as a result.

Roberts said in his statement he thought "an officer from Florida strongly intimated the parents and grandfathers had connived information if not actual ransom notes.

"Such an assinine suggestion can only be treated with the utter contempt it merits," he went on.

"The repeated allusion to kidnapping for ransom still worries us for fear some crank here might get the idea we have money and grab our remaining little girl."

"The truth is that a lawyer struggling to establish a practice is never flush or perhaps my wife works for fun."

"This story about my enemies was strictly dreamed up by the police. When questioned concerning possible enemies, I remarked, 'I supposed I might have made some enemies while in labor and while practicing law, but no more than the ordinary individual.'"

"I know of no sadistic pervers in labor. Anyone in Maryland who even desired to do such a crime

Marathon Senate Session In Third Day

Would Restrict Use Of AEC Money

WASHINGTON (AP)—A GOP move to bar use of Atomic Energy Commission funds for construction of commercial power plants today shot new heat into the marathon debate on the administration's atomic bill.

Sen. Hickenlooper (R-Iowa), floor manager for the bill, proposed the ban even as GOP leaders were trying desperately to force an end to the talkathon which, for all practical purposes, has gone on continuously since 10 a. m. Wednesday.

Sens. Anderson (D-Mn) and McNamara (D-Tenn.) charged Hickenlooper's move was an effort to force the most victory they and other critics of the original bill won yesterday.

If it is pressed, they said, debate would be prolonged.

By a 451 vote Thursday, the Senate adopted an amendment which would authorize the federal government to go into the commercial production of atomic power.

Critics of the original bill argued as a victory in locking the door against the "private power monopoly."

They said it would authorize AEC, the Tennessee Valley Authority or other government agencies to get into this field.

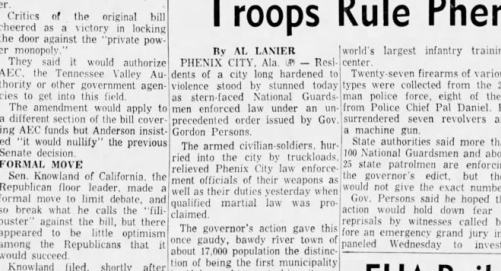

The amendment would apply to a different section of the bill covering AEC funds but Anderson insisted "it would nullify" the previous Senate decision.

Sen. Knowland of California, the Republican floor leader, made a formal move to limit debate, and so break what he calls the "filibuster" which has been used by the Republicans but to little effect.

National Guard Captain (Behind Desk) Takes Firearms From Phenix City, Ala., Policemen. (AP Wirephoto)

Troops Rule Phenix City

PHENIX CITY, Ala.—Residents of a city long hardened to violence stood by stunned today as stern-faced National Guardsmen entered law under an unprecedented order issued by Gov. Gordon Persons.

The armed civilian soldiers, hurried into the city by truckloads across the Chattahoochee River, relieved Phenix City law enforcement officials of their weapons as well as their duties yesterday when they entered the city.

The governor's action gave this once quiet, bandy river town of about 17,000 population the distinction of being the first municipality in Alabama history to have its entire law enforcement duties taken over by the military.

The stormy community of shady night clubs and gambling dens, known as the "Sin City" since the late 1920s, is located on Columbus, Ga., and sprawling Ft. Benning erupted five weeks ago when incoming Atty. Gen. L. Patterson was slain in an alley below his law office.

Gov. Persons said he was invoking martial law to suppress the state of lawlessness, intimidation and fear which reigns in Russell County. He added that Phenix City officers have either "been unable or unwilling" to control tangled affairs here.

The city and county law officers as well as private citizens were ordered to turn in all firearms and other weapons to the military command headed by Adjt. Gen. Walter H. Hanna.

Crowds of townspeople lined the courthouse and police station during Thursday afternoon steady drizzle as word spread around that the old order was changing.

But as night came the once teeming streets were almost deserted. Before midnight, guardsmen hauled in five persons on charges of being drunk—a fair average when rowdy Phenix City is the playground of Ft. Benning, the

FHA Builder Says Wife Defied Red Questions

WASHINGTON (AP)—Samuel J. Rodman, a New York builder who profited from erecting apartments with government-insured loans acknowledged today that his wife, Bella, refused to tell a House Committee in 1949 whether she was a member of the Communist party.

Rodman made the admission as Senate Banking Committee members were told that he reaped \$82,000 in profits from the construction of the Atlantic Gardens and Chesapeake Gardens developments in southeast Washington.

The over-all total of profits involved was brought out in questioning by William Simon, general counsel to the committee. Rodman testified he made about \$125,000 on two projects making up the Atlantic Gardens, and cleared \$90,000 more when he sold his share of the development in April, 1950.

Answering senators, Rodman said his wife, Bella, was a stockholder in the project. Sen. Payne (R-Maine) asked whether she was the "same Bella Rodman who appeared before the House Un-American Activities Committee in 1949."

Gerhard Van Arkel, Rodman's attorney, argued that the question was not relevant in the committee's housing construction probe. Chairman Caphar said he ruled that it was "pertinent."

Rodman then testified his wife did invoke the Fifth Amendment on June 28, 1949, refusing to tell the House group whether she was a Communist party member.

One month after his wife's appearance before the House Committee, Rodman himself testified he was not then and never had been a Communist party member. But he invoked the Fifth Amendment to some other questions including whether he had ever commu-

Blames Night Intruder Doctor Tells About Wife's Death

CLEVELAND (AP)—Dr. Samuel Sheppard returns to the witness stand today at a coroner's inquest into the killing of his wife.

Outwardly calm and speaking carefully, the 30-year-old Bay Village osteopath spent an hour and 55 minutes on the stand as the inquest began yesterday.

He told a story similar to one he gave authorities after his 31-year-old wife, Marilyn, was beaten to death July 4.

After dinner he fell asleep downstairs, he said, and later heard "her say my name loudly, screaming my name. It wasn't actually a scream. I really can't explain it."

He said he ran upstairs, grappled with "a white form of an individual," heard his wife moaning loudly and felt that he was struck down from behind.

The doctor—wearing a brace supporting his neck, which he said was injured in the scuffle—recounted seeing a "figure in the front door, or on the porch, or possibly beyond..." and pursuing "this form as best I could."

He said he tried to tackle the fleeing figure and "felt twisted or

choked and that's all I remember at that time."

Earlier he told of spending a week last March at Los Angeles

June Increase In Living Cost Only Slight

WASHINGTON (AP)—The government reported today that rising grocery prices forced the cost of living up one-tenth of one per cent in June.

The record set last October was 115.4. The June level is 115.1 per cent above the June 1950 start of the Korean war.

The increase was small but it was the second rise in as many months and edged the index kept by the Bureau of Labor Statistics close to the peak set last October.

BLS announced the June index has 115.1—meaning the cost of living was 115.1 per cent of the 1947-49 average.

Negro Named Court Page

WASHINGTON (AP)—A Negro youngster has been named a page boy to the U. S. Supreme Court.

The appointment, announced today, was made by court marshal T. Perry Lippitt and was approved by Chief Justice Warren.

The 14-year-old boy, Charles Vernon Bush, will begin his duties as one of the court's four page boys for the term starting Oct. 4.

Charles is the son of Mr. and Mrs. Charles H. Bush of Washington. His father is an educational director of Clarke Hall at Howard University here.

WHAT'S INSIDE

THROTTLED BY RAILS: That's what has happened to midtown Charlotte. The city's plan to relieve the situation is discussed on today's editorial page. Turn to Page 5A.

A CREW CUT IS ALL RIGHT for some folks, but quite a few of columnist Earl Wilson's friends don't think he was one of those. They made several choice remarks about his hair. Turn to page 2B.
