Coaches Growl About Missing Vital Buckets

By BOB QUINCY

When Belmont Abbey and Erskine walked off the court after the most exciting basketball game yet played at Coliseum, Coaches Gene Alexander and Al McClellan issued a common complaint.

"The should have scored more points," they said.

The game ended in Abbey's favor, 78-74, after being tied nine times with the lead changing a dozen more.

Struggled Alexander: "It we had even come close in our foul shooting the second half we would have never blown our lead."

Offered McClellan: "Those easy shots we missed made our offense look ragged. More Thibierge got 13 points. If he had been hitting, he would have had three times that number."

After the game, McClellan and Alexander shook hands and smiled at each other, a benevolent posture between two who have looked in one of the most bitter feuds in small college ranks.

It's still raging, despite the camouflage for the audience. As usual, it seems a yearly ritual here in Charlotte. The Abbey can't seek the audience in demand for tickets.

While the Crusaders were off in their field goal attempts, their foul shooting eyes were as sharp as a mountaineer's at sunrise. They hit 24 of 28 attempts as compared with Erskine's 22 rips for 46.

At halftime, Erskine was leading by nine points, 43-34, and apparently was ready to make a runaway. But the Abbey, which has lost two games in the last minutes this season (Lorin, Lenor Rippe), went ahead in the last five minutes and used caution from there until the end.

"Once we got the lead," said McClellan, "I started playing the clock."

Forward Ralph Moore, Erskine captain, paced his team for the third straight game in bucketing 17 points. Abbey's best pointmaker was Guard Roger Marzari with 14—and most of the Crusaders hit more than five field goals.

Abbey's biggest asset was its bench—with McClellan's substitute system paying off. Al Taglieri played briefly and hit for eight points. Center Jim Mead got nine as a sub for Jim York and Bob O'Leary, while scorers exhibited enough hustle to make his short stay a valuable one.

Abbey's two newcomers, Bob Grayson and Luke Lenahan, furnished a total of 22. As Alexander, in comparing this year's Crusaders with last, said he would take the old edition. His reasons: "They have no one who can hit like Underwood—and while he couldn't score, Cole was big under the boards."

Erskine
