Time Payments: A Needed Novelty

The new "Queens-Union Banking for College Plan" is, happily, the answer to many a maiden's prayer.

In placing the payment of college expenses in the realm of true installment buying. Queens College and Charlotte's Union National Bank have introduced a fresh, practical approach to an old problem.

It is likely to enlarge the opportunities of qualified students to enjoy the advantages of a college education. It will also meet a need not filled by scholarships. In this connection, Queens President Edwin R. Walker has commented:

This plan will make it possible for the particular plantage and the date of graduation fields. This plan will make it possible for the particular plantage and the date of qualified woman power and a dwinding legacy to the future of femiline scholarship and on temest the need. Last week Mr. Rhee actually bared his teeth in manipulating "spontaneous" civilian demonstrations that turned into attacks against U. S. soldiers guarding the Neutral Nations Supervisory Commission. Pledged to protect the NNSC. U. S. soldiers had to fight the Korean civilians with tear gas and water. The result can be nothing less than South Korean bitterness against U. S. forces who saved their homeland for them.

Now that he has publicly advised against further violence, Mr. Rhee ought to send the same word privately to the

If Mr. Oakes has correctly assessed the situation—and we believe he has—then there are grounds for hope that a more rational, level-headed approach to the security issue can now be found. But Americans should not be lulled hit the belief that injustice committed in the name of security does not occur merely because it no longer makes Page One.
