HIS EXPERIMENT might be called a white playing on the beach. It rated a police failure for Phillip French, 8, of Long Beach, Calif. He waits as two police officers try to remove the police handcuffs Phillip found while playing on the beach. It rated a police record entry. (AP Wirephoto)

Die, Damage High Northeast Floods

Hurricane Rains Hit 9 States

PHILADELPHIA (AP)—Torrential rains swept northward along the New England coast today, leaving in their wake one of the worst floods ever to afflict the eastern section of the United States.

At least 22 persons were reported killed, and damage was estimated in the millions of dollars, in the drenching storm that developed after Hurricane Diane swept as far as the Carolinas.

Nine states—Pennsylvania, New Jersey, Maryland, Massachusetts, Connecticut, Vermont, Rhode Island, Virginia and New York—and the District of Columbia were hit by the floods.

Pennsylvania counted 14 dead—eight drowned, four killed in auto accidents, two electrocuted, one drowned in Virginia and one in Rhode Island; two men were electrocuted by fallen power lines in Massachusetts and a third killed on a highway in that state; and landslides killed three in Vermont.

PHILADELPHIA (AP)—The Norfolk Naval supply center announced the change is being made in the interest of Armed Forces unification. Specifically, it comes under a new federal stock number classification system.

The swab, or mop, is one of about 50,000 general store items at the general supply depot here due for stock number conversion.

A supply center spokesman said the advantages of the system are obvious. "Once all government agencies use the single descriptions and stock numbers," he said, "purchasing, inspection, issue and redistribution of supplies will be simplified."

Several Deaths Reported In Train Wreck

MARKED TREE, Ark. (AP)—The Kansas City-Florida Special, last Frisco Railroad passenger train, was wrecked near here today. Several persons were reported dead and a number injured.

"They are still pulling people out of the wreckage," W. G. Key, superintendent of Marked Tree schools, said. "Several persons were badly hurt and I have been told there are some dead."

Key said the diesel-powered train, carrying 12 cars, remained partly on the rails.

"The last two or three cars are the ones I had charge. One coach is about 50 per cent demolished, and the last part of the dining car has been destroyed, crushed right in."

ON EMBANKMENT The train left the rails on a 20-foot embankment southeast of the Marked Tree depot.

Amidships and doctors were sped from Memphis, Tenn., 30 miles to the southeast. Other ambulances reached the scene from nearby Arkansas cities.

At Memphis, the railroad said that four cars were involved—two sleepers, the diner and one coach. It said the last four cars remained on the rails.

The wreck occurred at 9:30 a.m. The train had left Kansas City at 11:25 last night and was due in Memphis at 10 a.m.

Lake Forms School Firm

RALEIGH (AP)—Asst. Atty. Gen. Beverly Lake and nine other residents of Wake Forest today filed incorporation papers for a firm to operate a private "school or schools" at Wake Forest.

Lake, who has been the state's principal lawyer in court battles over the school segregation issue, has announced he plans to retire from his state post Oct. 1 to enter the private practice of law here.

In a speech at Asheboro several weeks ago, Lake suggested each community organize corporations to operate private schools as a means of avoiding integrated schools. He said he spoke as a private citizen.

The charter filed in the office of Secretary of State Thad Eure calls for the organization of "the Wake Forest Educational Assn., Inc., to operate 'a school or schools' for the education of 'such person or persons as may be accepted by the corporation, in its discretion, for enrollment.'"

The charter gives the non-stock teachers and other workers, to incorporation authority to employ, acquire, charge tuition, provide for pupil transportation and other powers necessary to operate schools.

Lake could not be contacted immediately for comment.

A DECK SWAB BY ANY OTHER NAME WOULD STILL BE SWAB

NORFOLK, Va. (AP)—The deck swab, which millions of sailors have pushed millions of miles, is on the way out.

The swab, after Oct. 1, will become a mop, Naval spokesmen reported today.

But the odds are long that the sailors who push it will continue to call it a swab.

The Norfolk Naval supply center announced the change is being made in the interest of Armed Forces unification. Specifically, it comes under a new federal stock number classification system.

The swab, or mop, is one of about 50,000 general store items at the general supply depot here due for stock number conversion.

A supply center spokesman said the advantages of the system are obvious. "Once all government agencies use the single descriptions and stock numbers," he said, "purchasing, inspection, issue and redistribution of supplies will be simplified."

Ex-Prisoner Sgt. Gallagher Is Found Guilty

NEW YORK (AP)—A court-martial today found Sgt. James C. Gallagher guilty of unpremeditated murder of two fellow American prisoners in a Chinese prison camp in Korea.

It also found him guilty of mistreating and informing on fellow prisoners and of collaborating with the Chinese Reds. Gallagher was found innocent in the death of a third prisoner and innocent of having advised the Chinese to shoot still another GI.

Gallagher, 23, of Brooklyn, was accused of throwing three Americans from a prison camp but into frigid outside temperatures and leaving them to die.

The eight-man court announced its verdict at 12:15 p.m. after all most five hours of deliberation.

Gallagher is on trial on charges of collaborating with the enemy and with the unpremeditated murder of three fellow American prisoners of war in Korea.

The court-martial deliberated three hours yesterday without reaching a verdict.

The court president, Col. Har WEATHERMEN WATCH AREA OF SUSPICION

MIAMI, Fla. (AP)—Forecasters watched an area of suspicion some 2,500 miles east south-east of Miami today but there was no hint of a new storm-forming.

"No development is indicated for the next couple of days, at least," said Gordon Dunn, chief storm forecaster in the Miami Weather Bureau.

The normal tropical zone of convergence is farther north than usual and this position favors development, Dunn explained.

The area of suspicion is in this zone and it has about normal winds—20 to 30 m.p.h.—but more than usual shower activity, and barometric pressure is relatively low, he added.

The Weather Bureau is receiving reports from ships in the area and keeping an eye on it.

Flooding Rivers In East N. C. Nearing Crests

RALEIGH (AP)—Damage caused by Hurricanes Connie and Diane in North Carolina will total between 50 and 75 million dollars, the state's civil defense director estimated today.

Brig. Gen. Edward Griffin emphasized this estimate was tentative and that engineers are busy compiling a more definite figure.

"It's going to run, in my opinion between 50 and 75 million dollars," said Griffin. He said that in addition to wind and water damage on the beaches and heavy flood damage in many coastal towns, "the crop damage is terrible."

LESSTHANHAZEL He recalled that Hurricane Hazel last October caused damage estimated at 120 million dollars.

Griffin said that Army engineers, Marines and highway commission crews are busy with bulldozers and other heavy equipment at beaches all along the southeastern coast. They are rebuilding sand dunes to protect the beaches from further storm damage and cleaning up debris left by Connie and Diane.

Agriculture Commissioner L. Y. Ballentine reiterated an estimate that farmers had suffered a loss of at least 30 million dollars.

Farmers in several coastal counties suffered when salt water flooded their crop lands. Ballentine said that in Hyde County alone 10,000 acres—more than one-fourth of the county's crop land—had been flooded and that flooding to a less extent occurred in other counties including Pamlico and Beaufort.

He explained that such flooded land will not produce crops until the salt has been neutralized.

A survey showed that Diane caused about half as much damage to private and public property as Hurricane Hazel.

Bragg Engineers Help S. C. Beaches

FORT BRAGG (AP)—About 150 men of the 92nd Engineer Battalion left here today for four beaches in South Carolina to help in rehabilitation of the hurricane-swept areas.

The men, with heavy equipment, were assigned to work at Myrtle Beach, Crescent Beach, Cherry Grove and Garden City.

Yesterday men of the 9th Engineer Battalion moved into Kure Beach, N.C.

Our Weather

Partly cloudy, hot and humid today, tonight and tomorrow. Widely scattered afternoon and evening thunder showers.

High yesterday—84. High today—84. High tomorrow—84. Low this morning—73. Low tonight—73. Sunrise, 5:46 a.m.; sunset, 7:07 p.m.

From Connie, Diane N. C. Loss \$50-\$75 Million

RALEIGH (AP)—Damage caused by Hurricanes Connie and Diane in North Carolina will total between 50 and 75 million dollars, the state's civil defense director estimated today.

Brig. Gen. Edward Griffin emphasized this estimate was tentative and that engineers are busy compiling a more definite figure.

"It's going to run, in my opinion between 50 and 75 million dollars," said Griffin. He said that in addition to wind and water damage on the beaches and heavy flood damage in many coastal towns, "the crop damage is terrible."

LESSTHANHAZEL He recalled that Hurricane Hazel last October caused damage estimated at 120 million dollars.

Griffin said that Army engineers, Marines and highway commission crews are busy with bulldozers and other heavy equipment at beaches all along the southeastern coast. They are rebuilding sand dunes to protect the beaches from further storm damage and cleaning up debris left by Connie and Diane.

Agriculture Commissioner L. Y. Ballentine reiterated an estimate that farmers had suffered a loss of at least 30 million dollars.

Farmers in several coastal counties suffered when salt water flooded their crop lands. Ballentine said that in Hyde County alone 10,000 acres—more than one-fourth of the county's crop land—had been flooded and that flooding to a less extent occurred in other counties including Pamlico and Beaufort.

He explained that such flooded land will not produce crops until the salt has been neutralized.

A survey showed that Diane caused about half as much damage to private and public property as Hurricane Hazel.

Californians Prejudiced Olympic Champion Can't Buy Home

SAN FRANCISCO (AP)—Dr. Sammy Lee, world-famed Korean-American who twice won an Olympic diving championship, has the Chronicle said today in a copyrighted story.

Real estate operators in Southern California's Orange County refused to sell to Lee, now a U. S. Army major, because of his Korean ancestry, the Chronicle said.

Lee announced several months ago he planned to practice in the area after he retires this fall. He is an eye, ear and nose specialist in the Army Medical Corps.

The Chronicle's Michael Harris said Gordon Trapp, a Garden Grove real estate salesman, told him Lee was refused a \$12,000 home because.

"This is a tract home. These people live eight feet apart. These people are not open-minded. If I had a colored or Oriental family here, all hell would be raised."

"I would rather have Dr. Sammy Lee myself than half the families here, but if you have one—

a nice one — then you'll have others, including a little guy from Mexico for \$25,000. The promoter, H. J. Johnston, didn't sell."

"The Lees tried to buy another home for \$25,000. The promoter, H. J. Johnston, didn't sell. I asked the neighbors whether they minded if I sold to Sammy," said Johnston. "They didn't say they objected, but they sure wished I wouldn't sell."

From Ft. Carson, Colo., where he is winding up 12 years of Army service, Lee told the Chronicle: "This doesn't hurt me, it hurts my country."

"Of course I'll fight it. As a matter of principle. Besides, I was raised, down here and I belong here."

He's a graduate of the University of Southern California and inherited in Orange County. He and his wife expect their first child soon.

Lee won the Olympic diving championship in 1948 and 1952. He was serving in Korea last year when he was recalled to receive the Sullivan memorial award as the man who contributed most to American amateur sports in 1953.

The State Department subsequently sent him on a three-month tour of Asia and the Middle East. On that tour, Lee wrote from Dayton to relatives here:

"Last night I had an argument with a rabid Communist who said the capitalist world had subjugated the colored races long enough."

"Then I said if this is so why am I, a member of the colored race, sitting here as a world champion and a doctor of medicine?"

'Don't Shoot,' Chicago Killer Begg Police

CHICAGO (AP)—Chicago's greatest manhunt since the days of gangster John Dillinger ended last night with a 26-year-old cop killer begging.

"Don't shoot. Don't shoot. Don't shoot."

Despite the plea, ex-convict Richard Carpenter, 26, was shot and killed by police officers on Wednesday night. He had been hiding in a rooming house in the city.

Carpenter was quickly hustled into a squad car under heavy guard and taken to the nearby North Avenue police station. Miling crowds shouted "Kill him" as he was taken to the lockup.

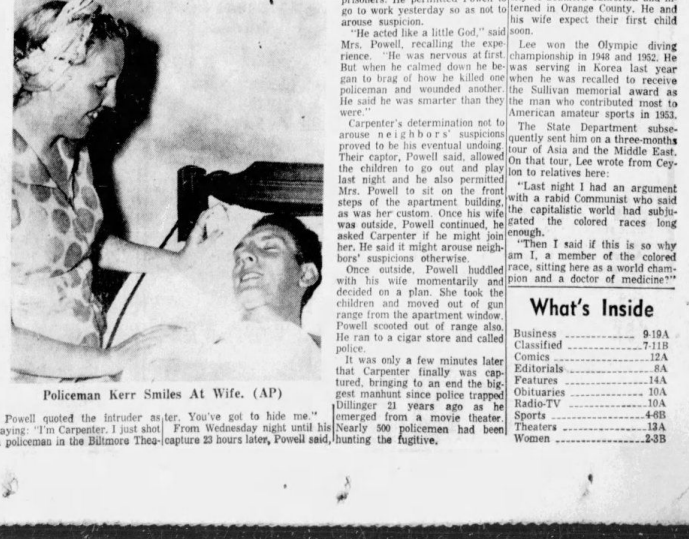

HE WAS CAPTURED just a block north of the Biltmore Theater where, on Wednesday night, he had been hiding in a rooming house.

Police said Carpenter admitted slaying Murray who had arrested him on a subway train. The young gunman was wanted in connection with a series of robberies.

After shooting Kerr, Carpenter fled the theater safely and ran a block to 25th Potomac Ave. There, he forced himself into the second-floor apartment of Leonard Powell, 31, a truck driver. Powell's wife, 30, and their children, Robert, 7, and Diane, 3, were

for policemen, battled fiercely when handcuffed. Carpenter was not wounded by police bullets. But, said Zuley, Carpenter kept pleading: "Don't shoot. Don't shoot."

Powell captured the intruder as he fled. "You've got to hide me," he pleaded. "I'm Carpenter. I just shot a policeman in the Biltmore Theater."
