

THESE PICTURES show the varied damage done by floodwaters in the Northeast. At left one lane of the main highway leading from South Tamaqua, Pa., is washed out. In the second picture an overturned car lies in a ditch at Agawam, Mass. A helicopter (third photo) rescues a man from a house in Scranton, Pa., while another (arrow) awaits his turn. The automobiles (right) were not wrecked, but piled up by water in Philadelphia. (AP Wirephotos)

## FLOOD TOLL CLIMBS TO 105

### Nationalists In Uprising Rioting Erupts In Casablanca

CASABLANCA, French Morocco (AP)—Bloody rioting broke out today in the "tin can" town that houses tens of thousands of Moroccan workers in the outskirts of Casablanca.

One French Army sergeant reported at least six dead, although the tendency among official sources was to minimize the trouble. At least six other persons were killed in other parts of Morocco.

Quiet was also reported in the Moroccan capital of Rabat. French Resident General Gilbert Grandval returned from France early this morning.

### APPEAL FOR CALM

Grandval prepared to leave this afternoon for Khenifra, 122 miles southeast of Casablanca, to appeal for calm.

During the night some 2,000 Berber horsemen from the Atlas Mountain wilderness rode into the city, where 11 Moroccans were slain yesterday in clashes with the French. But they were reported withdrawing to the hills around Khenifra as French security forces appeared to take control.

### Cop, Assailant Die In Battle

DETROIT (AP)—A Detroit policeman and his shotgun-wielding assailant were killed in a 15-minute gun battle today in a Westside rooming house. "A drunk with a gun" report had led police to the scene.

The first hint of a developing major disorder came during the night from Khenifra, a town of 11,000 people 122 miles southeast of Casablanca. Some 2,000 half-wild Zairian tribesmen rode toward the city where 11 Moroccans were slain yesterday in clashes with the French.

### Our Weather

Mostly fair and hot today and tomorrow. Fair and warm tonight.

High yesterday—96.

High today—96.

High tomorrow—95.

Low this morning—73.

Low tonight—74.

Sunrise 5:46 a.m.; sunset 7:06 p.m.

### Coal Miners To Receive \$2 Day Raise

WASHINGTON (AP)—The United Mine Workers Union confirmed today that its national policy committee was being convened late this afternoon to ratify a new wage contract.

No details of the agreement between John L. Lewis, UMW president, and Harry M. Moses, president of the Bituminous Coal Assn., were disclosed. But the deal is reported to call for a \$2 per day pay raise in two stages.

Moses represents Northern commercial and "captive" mines owned by the steel industry. These mines employ approximately 125,000 of the approximately 200,000 soft coal miners of the nation.

### SMILES CONCEAL MARGARET'S SECRET OF ROMANTIC INTENT

BALLATER, Scotland (AP)—Princess Margaret hid her romantic secrets behind a gay, impish smile today and joined thousands of curious at a church bazaar on the eve of her 25th "coming of age" birthday, when she will be free to marry without the queen's consent.

Wearing a tartan skirt and sweater, Margaret left Balmoral Castle in a station wagon and sped to nearby Aberfeldie Castle to sell knickknacks at a stall for the benefit of Crathie Church. She laughed and chatted merrily and seemed untroubled by world-wide speculation over whether she will now marry Group Capt. Peter Townsend, handsome 49-year-old wartime pilot and divorced father of two children.

### Custody Fight Looms Over Schmidt's Son

RED BLUFF, Calif. (AP)—A custody fight loomed today over the 15-year-old son whom Alman Daniel Schmidt saw for the first time when he returned last week from a Red Chinese prison.

Schmidt, 22, grimly filed a divorce complaint here yesterday against his 21-year-old wife, Una, who says she married her Alford, Calif. husband last September when she thought Schmidt was dead. Schmidt asked custody of the boy, Danny, charging Una with being an "unfit mother" and with "extreme cruelty."

Her attorney, Harold Beliner, said in Nevada City: "Una won't consent to giving up her son."

Una and Fine, he said, will continue living apart as "both consider it inappropriate that they live together until this is settled."

Schmidt, after meeting Una briefly in Nevada City, was quoted last week as saying she had done a "terrific job" with the little boy and pointed out it wasn't easy for a girl to bring up a child all by herself.

Schmidt filed the divorce suit at the Tehama County Court House, stopping here en route to Portland, Ore., where he will visit his mother, Mrs. Nellie Peters.

Schmidt is traveling with Una's mother, Mrs. Walter F. Ferguson. His attorney, Howard P. Welch of Sacramento, said he would serve

### Gov. Hodges Will Survey Storm Damage

RALEIGH (AP)—Gov. Hodges planned to fly over North Carolina's coastal areas today to get a look at the damage caused by Hurricane Diane.

This was only one phase of a busy day's schedule for the governor.

He left Raleigh early today to review National Guard troops of the 20th Infantry Division at Ft. Bragg. Following this, he planned to fly in an Air National Guard plane over the coastal area.

Scheduled to go to Belhaven this afternoon for a conference with U. S. Rep. Herbert C. Bonner and others on steps to help farmers and small businessmen who suffered losses from the storms. Representatives of the Farmers Home Administration and the Small Business Administration planned to attend.

### Ervin Attacks Penny-Pinching In Protection

WASHINGTON (AP)—Sen. Ervin (D-N.C.) today urged against penny-pinching in providing protection against storms.

Brig. Gen. E. C. Ilchener, head of Army engineers, stated this week any shore, almost anywhere, could be protected from hurricane ravages, but the cost would be "staggering."

Immediately after Hurricane Hazel in October, 1954, Ervin inspected hard-hit North Carolina coastal areas. He also visited farm sections damaged by winds and rain.

He later was among the members of Congress who worked to up appropriations for radar devices to track down and give warnings of great storms like Hazel.

Life Saver

"The improved forecasting of hurricanes saved many lives," he said today.

Commenting on this year's two most destructive hurricanes—Connie and Diane—Ervin said, "No more attention has ever been given to approaching disaster than the Weather Bureau now gives hurricanes."

Ilchener called attention to the fact that Army engineers are drafting plans for construction to minimize property damage and loss of life from such storms.

He said the study being made by Army engineers probably will result in recommendations that local areas modify zoning laws and imposition of strict building codes.

### NC Qualifies For Storm Aid

FRASER, Colo. (AP)—President Eisenhower has qualified North Carolina for federal aid to repair damage caused by Hurricane Diane.

Last Monday Eisenhower declared regions of the state hit by Hurricane Connie as a major disaster area. He allocated one million dollars in federal money for relief.

Since then, however, Diane has struck the state and Gov. Luther Hodges asked Eisenhower to permit use of some of that fund in repairing damage resulting from the second storm.

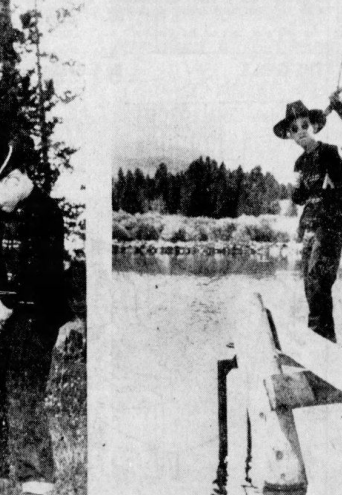

The President approved the request yesterday at his vacation headquarters here.

### Evening Prayer

Our Father, grant us the calmness that comes from Thee when we put faith in Christ, our Redeemer. Teach us to live humbly and work quietly, neither boasting, complaining, nor fearing. In the name of our Saviour Amen.
