Horsepower Horseplay Must Be Curbed

Mecklenburg County will prepare a judicial barbecue pit for the "drag racers" who will help stack the fire wood. Few sports are as preposterously obnoxious...

drag racing invites one of the worst types of accident—the head-on collision. From a standstill, two or more cars start off abreast and, going at top speed, through all gears, hurtle down a stretch of highway for a distance of 1/4 mile. Anything or anybody in the way is destined to get mused.

Fire Fighters Deserve A Fair Shake

CITY Councilmen, basking in an unseasonably warm glow of optimism about the state of municipal finances, still have a few charming responsibilities to face.

lic session. The Council promised to think it over. The time appears to be ripe for an adjustment of 50 U. S. cities in the 100,000 to 168,000 population bracket.

Whaddaya Make Of His Broken Bones?

ABOUT this time last year a columnist drew snickers with a suggestion for enforced physical examinations of presidential candidates and public reporting of the results.

Perhaps all this medical information is useful to the voter, but we must confess to having suspended judgment on the fact that Sen. Stuart Symington broke several bones on the playing fields.

From The Goldsboro News-Artus

WAS HE RIGHT?

ALL of you know the kildee. He is a long-legged, brownish bird with white markings. He is a nervous fellow and the rapidly with which he runs on the ground or flies in the air has given rise to the expression "run like a kildee."

There in the middle of the field they came upon a kildee raising a dust of commotion. Looking closely they found the nest of the bird. It was built right on the ground. It was lined with scraps of paper or something and with small pebbles.

Night Masks A Deadly Peril In Tortured Middle East

By JOSEPH ALSOP

AT ELI'S place, the landscape is positively littered with the withered stumps of time. And no wonder, for ELI's place has been a strategic key point since history began...

Where Border Tensions Menace Middle Eastern Peace

Concerning the Jewish, he says simply, "I once asked my father why he left comfort for hardship when he came to Israel from Germany...

the youth have always been seen, but this is none the less a new kibbutz, another of the remarkable Israeli collective farming communities.

ever seen, but this is none the less a new kibbutz, another of the remarkable Israeli collective farming communities.

the Negev pipeline brings more water for more fields. Yet the lean young men and jolly, rather unambitious plump young women of Kibbutz Zkrot tell in matter of fact tones:

People's Commissioners Exhibited A Provincial Attitude

Rock Hill, S. C. Editors, The News: THE Mecklenburg County Commissioners missed the boat when they raised a stink about our British cousins spending their pounds and shillings in York County.

"Women have won their freedom. Women hold down men's jobs. Women run for public office. Women vote the way they like. That means—you bait your own hook..."

Had the Commissioners' objections to the erection of the Bowers plant in Van Wyck, S. C., been based on international political considerations, they might have received fewer brickbats.

Many A Home 'Just Chrome-Plated Chao's' Editor, The News: MOST of the troubles of this generation can be laid to certain basic facts:

We have knowledge, but not wisdom. Knowledge means the accumulation of facts and information. Wisdom means knowing how to use the facts we know for the living of life.

library will enable you to learn what an intellectual giant in past centuries could not have learned in a lifetime. But just learning the facts that others have discovered does not give you wisdom.

Drew Pearson's Merry-Go-Round

WASHINGTON THERE'S been a heat wave in Washington. Despite this, the greatest snow job ever seen by newspapermen is taking place in the nation's capital.

Ike Victimized By Cruel 'Snow Job'

fit than ever to run, and that he's making major decisions affecting the peace of the world despite a post-operation fever and the excruciatingly uncomfortable tube through the nose to the depths of his bowels.

This, of course, will be denied. It came from a man who on the Senate floor called Ike's best military friend, Gen. George Marshall, a traitor, who opposed Ike's nomination, but who, when he himself faced possible defeat in 1952, held up Ike's arm as a retiree holds up a champagne glass, and smiled for the newsreels as if he were the closest friend Ike ever had.

However, one man who will not put political greed ahead of country, I am convinced, is Dwight D. Eisenhower—if he knows the facts.

Psychological Warfare But the cabal around him has been conducting a careful psychological job as he has not only to keep the facts from him but to keep them from the public.
