Futility: The Winner And Still Champ

The skirmish at Little Hope Creek, tributary to Sugar, was won by futility. Who's futility? Well, it was futility also who won the fight for water safety on the Catawba River.

nothing is being done about either problem. County Commissioners have the best of intentions, but they are armed with pop-gun authority. They say they can do nothing about Little Hope Creek but wring their hands.

Cyclops Of The Parlor Is A Teacher

MEMO to Dr. A. J. Stoddard of the Fund for the Advancement of Education: You asked why educational television can't get off the ground in Charlotte. The answer lies in an official feebleness of understanding and enthusiasm.

the lack of personal contact with the teacher, the give and take of questions and answers, the absence of video know-how on the part of some teachers. But these drawbacks assume less importance under proper supervision.

Hodges Tabbed 'Stevenson All-Outer' At Atlantic City

By DORIS FLEESON

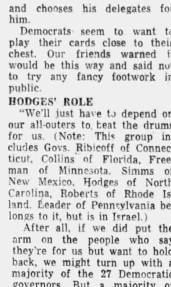

ATLANTIC CITY, N. J. COMFORTABLE couch in the lobby of the Shelburne Hotel, strategically placed between the front door and the Diamond Jim Brady Room where the 48 state governors are meeting the press, was staked out today by the Hon. William M. Hodges of Chicago.

GOV. HODGES Talking Up Adlai

Mr. Blair is the well-known poor man's Sherman Adams who hopes that his boss, Adlai Stevenson, can put him at the center of the White House web next January. In the police vernacular, Bill Blair is "raising the joint" and everybody stops to speak to Bill.

and chooses his delegates for him. Democrats seem to want to play their cards close to their chest. Our friends warned it would be this way and said not to try any fancy footwork in public.

GOV. TIMMERMAN Getting Attention

subsidaries there. Unless they have mended the roadbed since we got our bumps and sprains this spring, I guess we don't need to worry about that.

HARRY CAIN Of The Team

Moreover, some Democrats as well as Republicans are enthusiastic supporters of the administration's across-the-board program, under which the term "security risk" is applied to all persons whose employment by the government is not "clearly consistent" with the national security.

'Amazing'

Security Risk Revisions May Remove Hot Campaign Issue

WASHINGTON Two men named Cain and Cole may prove responsible for checking the snail and see if anybody's missing. Ave's hired that writing whiz, Coughlin, who used to be with the St. Louis Post-Dispatch, away from Bob Meyer to write his speeches.

People's Platform

Improvement through faith, the blind and superstitions belief in gods. If these people sense happiness by chanting chants and prayers at bedtime and on Sunday mornings they are surely to be envied, and the blissful immortal life which they imagine should be admired as honest and beautiful child-like fantasy.

A Little Primping On The Potomac

THE administration won't let Congress see the minutes of its cabinet meetings, but the door was open to a friendly reporter who might write an admiring book about Ike and his buddies.

There has, of course, been a great show of piety along the Potomac since the crusaders took office. The general impression was created that this administration was going to run the government with old sayings, cue slogans and prayer meetings.

Can Faith Improve An Imperfect World?

Charlotte Editors, The News: I OFTEN read in People's Platform many strong references to faith.

Black Rays

WASHINGTON Soft-and-white picture tubes produce a "soft" X-ray radiation through the face plate. "Soft" rays are the worst kind, because they are absorbed by the body. However, they dissipate readily and are not dangerous except at close range.

Audience Protection

Large-screen projection tubes, such as used in theaters to show TV fights, can give off dangerous amounts of radiation. The audience is usually protected, however, by lead plates or other barriers.

PROSPERITY IS OUR GREATEST TEST

WHAT I WOULD LIKE to know is how all-fired wonderful about prosperity. "Obviously," continues the asker of this question, "I exaggerate."

Demos Alienated

The governor is already a conservative. He's alienated nearly all the Democratic organization support he ever enjoyed.

Ike Loses Votes

Loyal Sen. Alexander Wiley of Wisconsin is not the only Senate Republican being threatened with a purge because he's supporting Eisenhower's foreign aid program.

Safety Measures

The radiation is through the faceplate and is sufficient to require the adoption of safety TV measures in TV receivers. Shielding such as that provided by a 1/4 inch thickness of safety glass in front of the faceplate should provide protection against personal injury from prolonged exposure at close range.

Faulty Set

Main danger to the average TV viewer would come from a set in need of repair. As a precaution, children should also be kept from sitting too close to the TV set.

By CONGRESSIONAL QUARTERLY

Drew Pearson's Merry-Go-Round

IT wasn't mentioned in the Atomic Energy Commission's report on radiation, but common TV sets may give off harmful rays, it should never be operated without requiring adequate X-ray shielding in front of the faceplate.

TV Sets Produce Harmful Radiation

Secretary of Defense Wilson whose ability to say the wrong thing at the wrong time is well known, attended a ceremony on Capitol Hill the other day honoring Congressman Dewey Short, Missouri Republican.
