Job Security

Discharged Draftees Can Get Their Positions Back

Adjutant General J. Van B. McKittrick brag about it, but he struck a blow for Army morale yesterday. He announced that committees soon will be formed in every community in North Carolina to help draftees get their jobs back as soon as they are released from the armed forces.

Legal Bolos

The Communist Party, She Ain't Like She Used To Be

Now that this country is, to all practical purposes, an outright ally of Communism, Russia's the United States Supreme Court has promised to review a Communist Party case.

Free Hand

How Has American Labor Treated Its Privileges?

At the very of a hint, American labor leaders will repeat with pardonable pride, that when Hitler established his German dictatorship, the first organizations he liquidated were the labor unions.

U. S. Minister

Distinction Comes to Hershchel Johnson, Career Diplomat

The President's nomination of Hershchel V. Johnson to be U. S. Minister to Sweden is a distinction of which he is justly proud.

Senator Soaper Says:

"Millions for defense" would be a better slogan than "no more war." It is not the money that is needed, but the will to spend it.

Getting By On 'Shape'

By Hugh S. Johnson

WHEN I was a yearling in West Point we had a classmate who, in spite of immaturity, had the manner, dignity and poise of a Roman senator.

It is an intellectual quality that is just so-so but he made the most of it and, as we used to say, "got by on his shape."

Through sheer memory of fingering, he could play one piece on the single piano that we had in old DuSalle Hall but he could play that perfectly. He always had his hands behind his cuffs and then looked about to assure perfect silence.

Descriptive Geometry Was His Waterlog

His Waterloo came in descriptive geometry—"angles, shadows and linear perspective" which is a curious byproduct of the higher mathematics.

Follow Through Broughton Makes Good on His Roxboro Riot Promise

Governor Broughton has made good on his promise to the people of North Carolina. He pledged that the State Bureau of Investigation would get to the bottom of the riot and attempt lynching in Roxboro last August.

Hanging Around

Budenny Lacks Only Brains

From Time Magazine

GENERAL Semion Budenny has lots of brawn on his fine body, but he also has more than his share of brawn between his ears.

Physically, the Russian specter in a revolver bullet at the waist he has a voice like the roar of a breaking ice-jam.

HE IS MELLOWED BY FAME AND YEARS. But fame and the years have mellowed him to the verge of softness.

HE NEVER COMPREHENDED STRATEGY. During the fight against Poland in 1920, Tukhachevsky's forces were at the gates of Warsaw.

AN ARMY IS AS GOOD AS ITS GENERAL. Marshal Budenny's troops fought the campaign which ended in disaster.

HE FAILED TO WITHDRAW ARMY IN EBESBARIA. His first misjudgment was at the time of the first winter campaign.

HE FAILED TO WITHDRAW ARMY IN EBESBARIA. His first misjudgment was at the time of the first winter campaign.

HE FAILED TO WITHDRAW ARMY IN EBESBARIA. His first misjudgment was at the time of the first winter campaign.

ing Donat Eastin, He was drawn into this error by the apparent need of defending the basin, and it is the fact that more facilities are thus being drawn into defense production.

WE ARE BEGINNING TO FEEL SACRIFICES. For a long time we have been talking about the sacrifices that would have to be made.

LOTS OF COURAGE LEFT IN RUSSIA. All this had laid bare the stretch between the forces of Marshal Budenny and those of the German army.

THE PERILS OF LAMEN CULTURE. Dave Sink in Lexington Dispatch. Having some grass planted and sowed, I'm mreading the bill.

Long Haul In Prospect

By Raymond Clapper

UNDER pressure of private industry, the Government is reaching out to settle smaller manufacturers in defense production.

For months defense officials sought to encourage production to a degree that would allow the nation to achieve without the loan.

But the bulk of the work still went to the larger establishments. Consequently little progress was made.

But as the shortage of materials compelled non-defense work to shut down, unemployment compelled the Government to take effective action.

For instance, the machine-making industry has been put under a heavy curd and is allowed to produce only about half of its normal output.

WASHING-MACHINE INDUSTRY GETS SPECIAL TREATMENT. A few days ago, to relieve distress, OPM certified the whole washing-machine industry for special treatment.

Other simple anti-aircraft machines-guns, machine tools, and other commodities are being produced in small plants in the defense program.
