How Many Will Nazis Kill To Avenue General Holtz

All feeling of vindication at news of fazi General Holtz's assassination in Decupled France are cut short at the Brought of what the Germans will do in

reprisal.

Day before yesterday, a Prenchman was moved down by a firing squad simply because he possessed a platol. Dozent of his coutrymen are going to their graves daily for minor assuuls on their computors. Several German officers have been killed and, in each instance, excret of innocent hostages have been acceuted.

executed.

But now-a Nazi General! Only God,
But now-a Nazi General! Only God,
But infinite wisdom, knows what
ghastly vengoance the Nazis will take
before their "honor" is satisfied.

All the good drys no doubt found com-tone to the sanouncement that Uncle fast may curtail or cease allogether the production of run in the Virgin Islands. It's just another instance of how un-bonal defense is transforming our econ-sony. There is a shortage of raw chyl sicohol. It seems that alcohol is neces-sity in the production of smokeless powder, 60 gallons of the stuff being sequired to make the 1500 pounds of explosives required to fire a 16-inch gun. 80. ## CIO Policy

Can John L. Hold Out Against the Communists?

Against the Communication Parama and Aller's Merry-Go-Round agent that John L. Levis might abandager that John L. Levis might abandager is sold at all amprising. Come to find about it, the remarkable aspect like situation is that John L. has been to held faut to his indistinguishment of the Oreman tire against Russia.

Despite Thil Murray's clevation to the

nominal presidency of the CIO, the real power has remained invested in Mr. Lewis. And since it is well known that Lewis. And since it is well known that Communist leadership is strong in the CIO, it is a testimonial to John L's Authorn harted of President Rossevelthat he clung to isolationism even after the Communist Party Line reversed itself last June.

that he clung to isolationism even after the Communist Party Line reversed itself last June.

Now, with the CIO convention less than a month away, with Commin reducts organizing their campaign in support of the Roosevelt foreign policy, John L. does well to link twice before he appears on the convention floor.

It is, perhaps, too much to hope that a strong CIO aid-to-the-Aillies stand will do much in the way of preventing defense strikes. The AFL indorsed a trave resolution to that effect at its convention last week but its unions arent allowing a little thing like a piedge to keep them from striking whenever they feel like it.

At any rate, if the CIO comes out strong for the Arsenal of Democracy program, both great labor organizations will be agreed on at least one basic issue. But that they would use this common goal as an opportunity to patch up their quarrel and put an end to "jurisdictional disputers" is hardy likely.

As the French airplane workers sang when Daladder asked them to give up their 40-hour week, "You Can't Stop Us From Dreaming."

Kearny and that there are 21 canualter. No more.

Apparently Secretary Knox and President Roosevit are attempting to inflame American passions in order that Congress will more speedily amend the Neutrality Act. We agree that the Act should be amended—but not by such methods. It is a hard thing to aay, but president Roosevelt's record will not support a reputation for consistently frank and open dealings. Rather he has been revealed as a well-meaning leader, one who has elected in many instances to pursue his end through devious means. He remains, for all the good that he has done, a tricky man.

In seven years of living together, we imagine the five Dionnes have pretty well worked out a system of priorities.

It's hard, putting over the idea of sacrifice, self-denial and belt-tightening in a country that still advertises the foot-long hot dog.
