#### Shaky Optimism

on Is Still the

Esy so Concasian Oil

By the Concession (vi. Speaking, with the approval of his speaking, with the approval of his speaking, with the approval of his speaking with the approval of the Black See and the order of the Black See are H. the German writes occupy these and the pract naval base at a seatings. Re has his casumption 35s white Black See as compared with any fittle Black See as compared with any flat See as compared with any flat See as compared with the second seed of the See as compared with the second seed of the See as seed on the See as s

shows that the eastern end of Crimea is separated from the Caucasian Isthmus by only a few miles of water. Here is where the Germans would throw the major part of their strength. In narrow waters, where land-based planes are more than a match for any battleship, they would cut off the Sea of Azov (giready half-surrounded by their armies) and take a short route into the rich oil idea of the Caucasia. It is no secret that oil is what the Nazis are after. They are sacrificing thousands of soldiers in the southern drive in order to get quickly what they must have to keep going.

Then, there is always the possibility that the Nazis will bring enough press-that the Nazis will bring enough pressshows that the easiern end of Crimea is

keep going.

Then, there is always the possibility that the Nazis will bring enough pressure on Turkey to force the passage of Italian warships through the Dardanieles into the Black Sea. The heat is on in the current Turko-German conferences in Berlin.

Tha British will do well not to declude themselves with false optimism but rather turn all of their energies toward preparing for the inevitable battle one battle they can't afford to lose. If the Germanies is to the oil fields, they are admost sure to be prolonged for at least a decade.

#### Make A Note

Better Still, Let the City Make a Precautionary Move

Make a Precautionary Mova

The best approach to this business which follows is probably the morbid approach. Evil, but it is a sensationally as possible, like this:

Somebody (there may be more then one) is point to be killed or injured one of these injurits when his automobile place linto that converte blockade in the press, plot at the interestion of East Morehead Street and Dittorth Road.

Soon or late, it is investable. And when it happens, a contributory cause of it will be the negligence of the City. It was a sort of stupidity that led to the putting up of this stout pillar in the first place. Two or three people had been killed at that bewidering interestion. Wooden posts were erected with warning alysis, but several of them ware knocked down by care, And so the City put up a stout concrete blockade which they couldn't knock down by Georgel U is a mercial note of the some night.

Make a mental note of the Some night.

which they couldn't knock down, by George! It is a merciless hazard to He and limb.

Make a mental note of it. Bome night some drunken or (se-linited or confused motories is going to come speeding down East Moreines Giret. He's going to veer into that contrets barrier, He's going to veer into that contrets barrier, He's going to be Billed or injured, and maybe others with him.

It will be his fault primarily, of course. He shouldn't have been going so fast. He shouldn't have purn onto the fast. He shouldn't have run onto the grass plot. But heeven, above! Give the poor fool a break.

#### On Trial

Joypee System Is Challenged On Constitutional Grounds

North Carolina's entire Justice of the Peace system is on trial. A Richmond County man convicted by a Jaypee has appealed the decision to the State Suseparate the derision to the State Sup-preme Court, holding that since the Jus-tice who passed sentence on him stood to collect a fee from any fine levied, he was therefore automatically prejudiced in the case.

The filtate Association of Magistrates is so concerned about the test of constitutionality that it has asked permission of file a brief as "friend of the court" in self-defense.

to file a brief as "risend of the court" in self-defense.

Mr. Albion Bunn, attorney for the Asypee association, asy the question involved is one of "serious import." He result in the self-defens to the fusice of the Peace as "that ancient and honorable office."

Orrianity it is an anient office and in most Instances it has been an honorable one. But all too often our Tar-Heel Jaypees operating under the outmoded fee system and with ne sort of supervision, have abised their authority and compounded great injustices. Like many other ancient institutions, the of-supervision, have abised their authority color of supervision and compounded great injustices. Like many other ancient institutions, the of-supervision payer has been subverried. Power of supervision of the subversion o

Senator Souper Sayas

Doings in the Axis lands: Four thousand professional crystal-gazers have convened in Tokyo, and would like to compare noise with Hiller's five astrologers.

For Thankspiring, the sol-dier in camp is to eat grape-fruit, chrimp, soup, turkey, cranberry sauce, candied yama, makind potators, pea, corn, mince and pumpkin pic creece, rula and coffee. If this army travals on Its stomach, it will not over.

# Side Glances

Your son had better come back tomorrow to have that Scrambled Enterprise

By Roymond Clapp

THERE IS much concern to that I try as he that the follows of principles and the following. This is

The second of th

at full speed.

That is one sample of the scremble That is one sample of the crimiting. There are counties others. In the in-ternational field we are buying the whole output of certain commodities in some countries. We are taking all of Child's copper and all of India's mice. The Conserment is the only purchaser of rubber from the East India.

UNSCRAMBLING WILL

BE DIFFICULY TASK

The uncrambling of the omelet, the restoration of free enterprise as we once knew it. will be a difficult task it will be impossible unless fuller is crushed. For we cannot unscramble our economy For we cannot unexamble our economy and restore private business to its former freedom if we are compelled by the existence of a victorious Hitler to continue our heavy armament indefinitely. And surely no one thinks we would disarm if Hitler won.

Even if Hitler is defected, it will be a constitute whether we are disarm to a constitute whether we are disarm to

Even if Hiller is defeated, it will be a question whether we can disarm to any considerable extent. If the old anarchy it to continue as it did after the last war, we would not dare to disarm because within a few years new threats would be likely to rise up. There is only one chance that we can disarm sufficiently so that private business can be rid of priorities and again have unrestricted materials.

CREATING A BECURE
POST-WAR PERIOD

That one chance use in the creation of a secure post-war period. It is in starting, out with a combination of the two powerful nations, the United States starting out with a combination of the two powerful nations, the United States and Orest Britain, controlling the but of the naval power and the but of the naval power and the but of the raw materiats. It lies in these two nations bringing into the new grouping all of the other nations which will co-operate in a common end to prevent ruither use of forces as an instrument of policy. It lies furthermore in the just use of this power-as we have used ours in the Western Hemisphere to insure protection and stability for smaller nations. That means a far greater distribution of raw materials, a chaines for all nations to live and breaths. It will have to include Germany, thaty and Aspan certificially.

At least this is what a lot of people around here thinks about it, and I don't be a small before thinks about it, and I don't be resulted to the same of the mass much chaines for readornal free privates enterprise the what it once was until that kind of an outside world is established.
