Multiple Jobs

Energies Are Spread Out too Thin for Defense Speed

onto for Defense Speed
One obvious reason why defense preparations are being fumbled is pointed
up by the action of the President in
naming Florello La Guardia as chairman of the new civilian defense board,
which will be charged with working out
a nation-wide air raid precaution system, co-ordinating local and Federa
defense projects, arranging recreation
and health facilities, etc.

Mr. La Guardia is a men of great an

and health facilities, etc.

Mr. La Guardia is a man of great energy and intelligence, and his selection for the place would be an admirable one if it were not for the fact that he will continue to be Mayor of New York, chairman of the U. S. Conference of Mayors, and co-chairman of the Canadian-American Permanent Defense Board.

The Little Flower is, after all, just one man, and one man can't reasonably be expected to do all these things well.

expected to do all these things well. But the President apparently dotes on this kind of arrangement. For example, in the Defense Mediation Board. Chairman Dykstra goes right on being the president of Wisconsin University, and, like Board Member Frank Graham, serving on a hundred other boards beside.
And there is no member of the board
who gives it more than a casual portion of his time.

tion of his time.

All these men are excellent men. But it is obvious that any detense job which is worth doing superlatively calls for undivided attention. To attempt to handle it as the President is now doing is unfair to the men who are named to these positions and who will be blamed for failure. But it is far more unfair to the national interest.

Vichy Seeks To Hide Its Real Motives in Betrayal

Real Motives in Betrayal

The men of Vichy are cut to confuse
not only their own people but also the
American people when they attempt, to
set up the claim that their opening the
way for a Nazi drive through Africa to
the West Coast is only a more to put
down a French rebel, De Goulle, and so
of no concern to any third country.

The fact of the matter is, of course,
that there is no legitimate French Government. The men who rule what is
called unoccupled France are in power
ecause they first setzed control of the
French army, betrayed the French people in a shameful surrender, and weple in a shameful surrender, and weplet in their present jobs by Adolf
Hitler.

Vichy is simply a stooge of the Nazi regime, and Darlan and Laval are quite as vicious as Vidkund Quisling-are pre-pared to sell France into any sort of slavery in order to gain power for them-

scives.
There is not even the excuse for them that they can't help themselves. It might well be true that they couldn't prevent the German landing in Syria, that they cannot prevent them from attempting the march to the west coast of Africa through Togoland and the Cameroona. Even that seems doubtful in view of the fact that they still control the French navy and Weygand's army—formidable threats to the Nazis If they had been used.

But it certainly is not true, in any case, that they have to collaborate actively with the Nazis in firing on the Fritain beyria and in handing over the French African possessions for an attack on the only Frenchem still fighting for France.

Hittle's purpose is to get control of the west coast of Africa in order to win the Battle of the Allantic and prepare the way for his attack on the American. The men of Viehy are energetically cooperating to these ends. That is the plain and simple fact, and all talk of other motives is only a word screen designed to consuse and paralyze regist-There is not even the excuse for them

I think it is fair to say that we are not likely to commit any overs dot of segression ourselves. At the same time we are likely to resist any attempt by the Axis to establish itself on the islands off the coast.
