Winston-Salem Ain't So Peaceful After All

Peaceful After All
Charlotte's former 25-cent taxt company had a bot easier time rating its fares than the Blue Bird Company of Winston-Salem.

More than a month ago the Winston-Balem cab company said that higher costs and conderable dissatisfaction among the drivers made it necessary to hits fares from 25 cents to 35 cents. In announcing the higher rates, the Blue Bird company promised that nearly all of the additional 10 cents would be paid in higher wages to drivers.

Everything was set for the change when Blue Bird was informed by the city that taxt fares were covered by an ordinance and that no change in rates could be made without approval by the

A CIO Picket Snitches On The Boys in the Back Room

The Clo News does not reveal how Mister Ferguson knew about the young woman's previous indiscretion or how he recognized her. But he did know there was a siag party going on within. "So he stepped to the telephone and let the police know that something was in the wind at Waiters. A few minutes later a flock of squad cars were at the door ... and three patrol wagons filled with red-faced customers."

We do not know what particular clianon the Clo confers upon its plokets for such a deed but the police have a name for people like Mister Ferguson, Stool Figson.

IS MOST IMPORTANT
The four freedoms, the rights of small nations, and that sort of thing are desirable by-products but we shouldn't contine numeries by victing about them. The main point is the defines of the Western Hemisphers, the establishment of a peaceful world, returned of the thirest that the Nazi regime means. Britain is the key cutpost in the resistance. We constitute the main production creater behind the lines. How much production thould go to Britain and how much should be hids her will be a matter of military judgment, not a subject which a creater-beart detail can settle infelligently. It is essential that Britain stay in the war. Courth-lift's Stunday speech leaves no doubt that he intends to stay in — that England will die on her fret before the goes in her knees. Whether also dies on her feet or lives through it will depend leavely upon the.
