WEDNESDAY, JULY 2, 1941

W. J. Cash

His Genius Toiled For a Revitalized South. It is a whim, fathered by shock and a certain sense of conservatism of that which has been given, that this page takes no account of that tragic scene in the Hotel Reform...

Victories of any consequence since the began. Not only is he popular with the British public, but the German Chief of Staff, General Keltel, once said: 'The British have one good general; he is Wavell.'

Seeing Slums

In Winston-Salem 20,000 Persons Live in Squalor. There is something ephemeral about slums. Now you see 'em and now you don't—and suddenly there they are again. Especially the slums of Winston-Salem.

About five years ago, word was passed around this tobacco center that a million-dollar Federal Housing project could be had. The newspapers thought it was a good idea and began to print pictures of alleged dwellings which, it was hoped, might be replaced by a Federal project.

Then opposition began to develop. It happens that just about the best sentiment in Winston-Salem from a purely financial point of view is in Negro slums. It is common knowledge that some of the city's most prominent citizens own large sections of these miserable hovels.

As we said, there were other prominent landlords and they knew how to throw their weight around down at Winston-Salem's City Hall. So the Board of Aldermen passed an official resolution, now famous throughout the State, which killed the housing project by simply denying that there were any slums in Winston-Salem.

This action by no means deprived Winston-Salem citizens of their senses of sight and smell. The people saw the slums and their nostrils were offended. When the political star of Richard J. Reynolds began to rise over the Twin City long about last spring, few people were surprised when the tobacco baron's waste slum clearance the major plank in his majority platform.

Last Saturday the inspector reported. We submit that the conditions he reported comprise a scandalous black mark against Winston-Salem and the State of North Carolina.

Here is what the inspector found: (1) Twenty thousand persons in Winston-Salem—nearly a fourth of the total population—are not only inadequately housed, but the dwellings where they live lack the rudimentary conveniences of sanitation required by law.

(2) At the present rate of building in Winston-Salem, it would take 4 1/2 years to replace the sub-standard dwellings—even if the population remained the same and no buildings deteriorated during the next half-century.

(3) Since the population is rising and since buildings are deteriorating, inadequate housing is increasing rather than receding. It is concluded that if the present trend were allowed to continue unchecked, the entire city of Winston-Salem eventually would become one big slum.

Being progressive by nature, Charlotte is, of course, in much better shape on her housing than Winston-Salem. Charlotte is several years ahead of the Twin City in the matter of reporting a survey. Not only have Federal Housing projects been built in Charlotte, but there has been a most commendable activity by landlords in providing sanitary facilities in 'slum' areas.

'Czar' For Defense

By Hugh S. Johnson

WHATEVER two or three are gathered together, they are sure to turn to the terrible lack of direction and progress in our multi-billion dollar defense program.

This is a fair paraphrase as I think Mr. Baruch is sure to agree. Having a little first-hand information and more experience with the program, these questions are well worth a column, because every one of them springs from a greater or lesser knowledge of the situation.

There is another reason—the ingrained suspicion and jealousy of this Administration. Mr. Baruch seems generally acceptable to the public, but the kind of assistance that he would be apt to rely upon might not be. He has a right to be suspicious.

Where on earth will Joe Stalin go if and when Russia crumbles before the German machines? He will find no welcome in Britain, Germany, France, Italy, Japan, China, Turkey, America and certainly not in Mexico, which country has had its fingers burned by trying to entertain another Russian exile.

Personally, I shall not be surprised at any time to hear that Joe has been bumped off. That is the usual order of things in Russia and when as big a devil as Hitler becomes involved in the affair, just any dirty thing should cause no surprise.

Some states, like Maryland, hang murderers, and some electrocute them; and some, like North Carolina, have tried hanging and the electric chair, now have progressed to the lethal gas chamber.

Busy as a Man Killing Snakes

By Herbert Block

Letters to the Editor: Where'll You Go, Joe?

Editors, The News: It has been most accurately stated that not every time a little school girl scratches her head it is about the price of cotton, but I have a question for you which is calculated to give you more than ordinary concern.

Where on earth will Joe Stalin go if and when Russia crumbles before the German machines? He will find no welcome in Britain, Germany, France, Italy, Japan, China, Turkey, America and certainly not in Mexico, which country has had its fingers burned by trying to entertain another Russian exile.

Personally, I shall not be surprised at any time to hear that Joe has been bumped off. That is the usual order of things in Russia and when as big a devil as Hitler becomes involved in the affair, just any dirty thing should cause no surprise.

Some states, like Maryland, hang murderers, and some electrocute them; and some, like North Carolina, have tried hanging and the electric chair, now have progressed to the lethal gas chamber.

Toward Socialism

By Raymond Clapper

WASHINGTON—The Government is about to go into extensive control over prices. Legislation is to be brought soon to give the Government legal power economy than that of the free market.

Practical-minded persons recognize that only theorists, soaring off into flights from reality, will oppose control measures on the ground that our democracy is being sacrificed. There is no one more devoted to the cause of democracy and a free economic system than the Government.

Pappy Wins

A Miracle Is Waged on Lee O'Daniel of Texas

Only two days ago word came from Texas that only a miracle could save the Miracle Man of the Lone Star State from political defeat.

Lee O'Daniel, of Pass-the-Biscuits-Pappy notoriety, was running behind young Congressman Lyndon Johnson in the Senatorial election. As more votes came in, O'Daniel's lead increased.

Without warning, the night the miracle occurred, O'Daniel came from behind and pounded down the home stretch, the winner by a nose of about 1,000 votes.

What we know about O'Daniel and his record does not enable us to speak favorably of him, and we are beginning to wonder why. If miracles are still available, they are not under strict OPACS priority control. They are badly needed elsewhere.

Wavell Out

Britain's Only Successful General Gets the Hook

There is more to be told about the transfer of British General Archibald Wavell from his Middle East command to India. The British public, profoundly shocked at the unexpected transfer, is making a couple of strictly unofficial guesses as reasons for the shift.

One interpretation is that General Wavell is being replaced because the Germans broke through in Libya and because British forces were not able to hold the Crete. Perhaps it is common knowledge that Wavell had neither the men and equipment in the case of the Libyan break-through, nor adequate air protection, in the Crete episode, to successfully resist the Nazis.

It was not Wavell's fault that he was transferred on the ground and in the blame for this deficiency must fall squarely upon the British High Command. It was not Wavell's decision to weaken his victorious armies in Libya that led to the expeditionary force to Crete.

It was not Wavell's decision to weaken his victorious armies in Libya that led to the expeditionary force to Crete. It was not Wavell's decision to weaken his victorious armies in Libya that led to the expeditionary force to Crete.

Newspapers Can't Compete With This

New York World-Telegram: A young fellow named Elliott Starb has inaugurated the Eye Appeal Ad Center, and rents out space on pretty girls' knees to advertise the principles of eyeing. The maiden then rides the subway and street cars, erases her knees and shows all. She knows this. She knows all. She knows this.

For several years Dr. Francis E. Townsend has been advocating that America invest approximately \$5,000,000,000 annually in a scientific pay-as-you-go constructive program of voluntary retirement benefits for citizens 60 years old or over, so that every American may enjoy happiness, security and national prosperity to create a Christian example of economic impossibility.

Side Glances

What doth Jehovah require of thee but to do justly.—Micah 6:8. The object of the electric chair also is to make execution as quick as possible. Sometimes, when he bungles the job (as the job has been bungled occasionally at the Maryland Penitentiary), the condemned man dies slowly—but the chances are that, though the man's heart may continue to beat feebly for eight or 10 minutes, the shock of the so-called rendered him unconscious an instant after the trap was sprung. He doesn't feel anything.
