Teamwork

In Baseball or War America Can Use It

America Lin Use it.
That all-star baseball game up in DeGuit pesterday had everything—brilliant
pitching, heavy hitting, and a story
hoef finish. In the last half of the
midth inning, Mr. Tred Williams, who
had pounded out hits wire out of every
five those he has been at bat this year,
hammed a home run with two men on
heave. That broke up the ball game.

To us the most op the ball game.
To us the most remarkable aspect of these ell-star games is the precise and spirited teamwork that springs up in both diagouts and displays itself on the sold dugous and displays itself on the dismond. They are picked stars, these American and National Leavue players, but because they are from different lessing they do not have that initimate inswinders of each other's habits and faults—the kind of savey you get only by playing with the same old bunch day after day.

Fig. 18 to think that this is a pe-aliar characteristic of all Americans— he ability to pick up sides and regard— of individual faults and differences some a "team". It takes mutual reserie and understanding to do it, but

Whatever Their Slogans. The Commies Are Vermin

Mr. Bart Logan, the "Little Red Father" of 150 dues-paying Communist Party members in North Carolina, was in Chariotte yesterday. In fact he ate soft-shell crabs and lima beans with our Mr. Tom Fesperman to whom he imparted new and unshakable Party line.

the new and unshakable Party line.

A few days ano, Mr. Logan and other regional Red leaders were summoned to New York to hear what the Nazi invasion of Renaish had done to their "Stop the Imperialist War" theme song. This turne was cancelled and the assembled Communist sub-commissars were told to go back to that old refrain of pre-pact days, "Stop Ritter."

Mr. Logan is convinced that it is not the stilltude of the American Communist Party that has changed, but "the character of the war." We do not doubt that Mr. Logan is convinced. We have talked with Mr. Logan and several other Communists and we can testify that whatever each of them believed, he was utterly and completely convinced that he and his countrades along were rister. It half of the professed Christians were as devout in their beliefs as the Communists are in theirs, the world would be on the threshold of a golden age.

Communist convictions are not only

Communist convictions are not only intense, they are subject to change without notice. That is why a Communist convinces himself more than he is convinced.

Anyway, before we start poking fun at the latest Communication latest Communist about face, it be well to turn over a few unpleasant facts:

pression faces:

11) The Hiller-Stalin part was the worst blow the American Communist Party ever received. It hit where the skin was tender by forcing the party to take an unpopular stand on the most important issue of the decade. Thousands of Party members and feilow travellers deserted.

About Irritation

Editors, The News:
It may sound like a far-fetched idea, but had you ever thought of a pear is a symbol of something beautiful made from an irritation? A lovely pear il is formed, you know, when a grain of aand gets in and irritates the oyster until he decides to do something about it. Through his efforts he makes a beautiful pearl of the inner which hindered him. Perhaps if the said grain of aand had not sotten in his way, the said ovsier would have heen like any other ordinary oyster—pearless.

Keeping this in mind, does it of seem tortes that we like the

CONGRESS COULDNY FACE
SMALL INCOME TAXEATHES

Where the Congressmen weighed was
in facing the mions numerous enginemoney class. It is disculous to leave untenuched, as the immittee has, the premoney class. It is disculous to leave untenuched, as the immittee has, the premoney tax. Earning 1000 a year he
had only ear would pay only 115 inccome tax. Earning 1000 a year he
would pay \$110. Those are trifling leaves,

A married cupie with no children,
A married cupie with a children
would pay only \$11. Those are hardly as
much as they all pay in automobile saxes.

Why should not a family earning under
\$12000 pay income tax?

There are riductions inequalities in
the rocke leave. A "use" lax of \$5 is
a righted to automobile. That's fair
enough, But why only \$5 tuse" ias for
yachts and surplanes? Why fet a yach's

tax that the family setz carrier?

If clocks, a necessity, are taxed ten-per cent, why should phonographs and records escape with only the same tax?

records escape with only the same large. And the danger is that as Compress considers this tentative bill this tendency, as mucal, will be to white down. The more Dongress debates a tax bill, he more it loses its nerse. Even in these times members used to follow the old rule—we for few rey expropriation bill and against every tax bill.

Incidentally, with heavier taxation ahead, most families will finds it worthwhite to take advantage of the Cormment's new method for easing the blow of the income-tax bill. The new

ernments hew menon or example the blow of the income-tax bill. The new tax-anticipation notes, bearing interest, will enable the average family to put away in advance money out of this year's earnings with which to pay may year's taxes.

After August 1. You can buy these interest-bearing tax notes at your bank. You can use them to pay your income tax. If you have a supply of them on hand, you have a supply of them on hand, you have a supply of them on your taxes as against a loss of income, or unusual family expense that might mean otherwise going into debt or sacrificing some of your property to ratie tax money. These tax-anticipation notes have long been needed.
