Merchants Show Willingness To Take Council's Judgment

At a meeting yesterday the directors of the Charlotte Merchants Association of the Charlotte Merchants Association came to a decision about parking meters. The consensus of the board was expressed in a resolution which was adopted manimously. With the merchantal permission, we should like to borrow that resolution, re-phrase if according to the way most people feel about parking insters and offer it as our own opinion. Here goes:

Somehow or other, the mere mention of parking meters beta off the most furious controversies pro and con, and estemitimes the londest arguiters know least about the subject.

"Foolish Show"

Senator "Sherlock" Nys Exhibits A, B-1 and X

Benator Nye's deep, dark disclosure that the American motion picture industry is making anti-Near films because it wants Britain to win the war and be a customer for U. S. movies is downright humorous. The movie producers, he charges in his most judgmatical tones, have a financial rake in the war and this leads them to the dissemination of proposed them.

this leads them to the dissemination of propaganda.

Shades of Sherlock Holmes! What a deduction! And who, pray tell, has not got a financial stake in this war—including the Government of the United States—and who, save for the treacherous and the bilind, does not recognize that for our own sakes Statian must win? As for what Senator Nye calls propagands. there are times when to tell the truth is to propagande. It has been established beyond doubt that the Nazi regime has brutally persecuted. Christians, Catholles and Jews. It is true that there are concentration camps run by the German Government in which men are staved, beaten, and torured. Too many have lived to tell. tured. Too many have lived to tell about it. Not even Hitler can keep secret the greatest crime ever perpetuated up-

on humanity.

Bure'the movies portray what is happening in Nazi Germany. The pity of it is that they didn't get going with what Senator Nye calls "propagands" sooner. Maybe the movies do stretch a point: now and then to be dramatic—but so do Senators and all the rest of the

ACTUAL LOSSES IN TRANSIT ARE RELATIVELY SMALL

In the United States there have been fantastic stories about the number of fantasito atories about the number of American plantes tost in transit. These reports are grossly exaggerated. The losses have been relatively small, so efficient has the North Atlantic ship-ping routs become. In fact, the appear-ance of a German submarine on the American-patrolled section of that route may indicate the beginning of a new

For months, evidently, Hitler has had his submarine commanders under strict orders to avoid contact with American patrol craft. No doubt he thought is patrol craft. No doubt he thought is more to his advantage to let the North Atlantic supply route operate with rein-tively little interference than to rike drawing the United States into the war.
