# TWO-DISTRICT PLAN FAVORED BERMUDIAN IN

After a long discussion, members of the board of directors of the Bermudian Springs Joint School District at a special meeting Monday evening voted 11 to Y in favor of Plan B for the reorganization of the county's school districts.

Plan B places Gettysburg, Littlestown and Fairfield jointures in one district and all of the other districts of the county in a second district.

The board also adopted by majority vote a resolution expressing their opposition to Act 561, the law passed last year by the state legislature compelling reorganization of the state's school districts into larger units.

Another resolution favoring the reorganization act with amendments failed to carry.

WASHINGTON (AP)-The Soviet Union and the United States headed into a collision course today as U.S. Navy ships moved in to clamp an arms blockade on Cuba and halt the Soviet conversion of the island into a nuclear missile base.

A direct confrontation between the two great powers could come by nightfall, in the judgment of Washington officials.

The crisis was probably the greatest since World War II.

The full scope of the danger broke upon the world Monday night when President Kennedy announced the establishment of Soviet missile bases in Cuba and dsclosed a seven-point program of U.S. action starting off with a naval blockade to halt the flow of any more offensive arms to Cuba. KHRUSHCHEV IS WARNED

He called his move the imposition of a strict quarantine, avoiding official use of the word blockade. But administration officials said that in practical effect there was no difference.

Kennedy is depending on crisis diplomacy to pull the world back from the brink of conflict. Shortly before addressing the nation by television and the world by radio he addressed a personal message to Soviet Premier Khrushchev to refrain from any step which would make the situation worse.
