

Soviets Threaten To Renew Testing Unless West Quits

GENEVA (AP) — The Soviet government said today it might have to resume testing nuclear and hydrogen weapons unless the United States and Britain get France to abandon its testing program.

The assertion was contained in a formal statement the Soviet delegate, Semyon K. Tzarapkin, read into the record of the deadlocked nuclear conference at its 35th session.

"The Soviet Union has repeatedly stated that the French tests complicate the reaching of an agreement" on a worldwide suspension of nuclear weapons testing, the statement said. "This may force the Soviet Union to resume testing of nuclear and hydrogen bombs."

Tzarapkin asked U.S. negotiator Arthur H. Dean and Sir Michael Wright of Britain to forward the Soviet statement to their governments.

He repeated charges he made March 21 that the French were in effect conducting tests on behalf of the two Western powers who have observed a moratorium on weapons tests since these talks began more than 2½ years ago.

Dean categorically rejected the Soviet statement. Sir Michael termed it "judicious." Both accused the Soviet delegate of raising the matter to cover up Soviet "intransigence" on the crucial issue of how to control a treaty.

Senate GOP To Hit Kennedy School Bill

WASHINGTON (AP)—Senate Republicans launched today a two-pronged attack against President Kennedy's aid to education program and his government reorganization orders.

Sen. Styles Bridges of New Hampshire, chairman of the Senate Republican Policy Committee, said GOP senators will try to establish general party lines on these issues in a closed session Tuesday.

While Republicans are divided on the education issue, Bridges said he thinks a majority of them may support a tax-rebate substitute for the administration's \$2.55 billion bill which comes up in the Senate Tuesday.

Instead of federal grants and loans for teachers' salaries and school construction over the next three years, Sen. Francis Case, R-S.D., and Norris Colton, R-N.H. have proposed the return of federal tax revenues to the states for education purposes.

Case has offered a bill which would rebate to the states 1 percent of each year's federal income tax collections. Bridges said this would produce about \$640 million annually in additional educational funds to be spent by the states.

Colton has proposed earmarking 2 cents per pack of the federal cigarette tax for rebate to the states, a program that would give them an additional \$468 million annually for school purposes.

Bridges disclosed in an interview that resolutions have been drawn to attempt to reject four reorganization plans sent to Congress by Kennedy. He said he is confident from talks with Democrats that there will be bipartisan support for this rejection effort.

"A great many Republicans and Democrats feel that the President's reorganization plans call for too great a concentration of power in the chairman of independent agencies," Bridges said.

"He seems to be trying to take from them the independent and quasi-judicial status given them by Congress and put them in the grip of the executive."

Kennedy's four plans cover the Federal Communications Commission, Securities and Exchange Commission, Civil Aeronautics Board and the Federal Trade Commission.

The four plans would become effective unless either house of Congress voted to reject them.

Goldfine Pleads Guilty To Evading \$800,000 In Taxes

BOSTON (AP)—Bernard Goldfine, Boston industrialist, pleaded guilty today to charges of evading nearly \$800,000 in personal and corporate income taxes.

U.S. Dist. Judge George C. Sweeney continued the case and ordered Goldfine to report to a court-appointed psychiatrist to determine his present mental competence.

The sudden plea came after defense and prosecution attorneys were closeted with Judge Sweeney for more than half an hour.

When the court finally opened, E. Bennett Williams, Goldfine's chief counsel, said that "the defendant has expressed the desire to withdraw pleas heretofore entered and to enter pleas of guilty."

Williams said, however, before the pleas were entered he wanted to ask that an examination be ordered to determine if Goldfine now is competent to make such a plea.

"I'll accept the pleas subject to a psychiatrist ruling on his competence," Judge Sweeney said.

Goldfine then in a steady voice pleaded guilty to the two indictments, one charging evasion of \$509,961 in personal taxes and the other of \$340,784 in taxes on the Strathmore Woolen Corp., one of his firms.

U.S. Sending More Experts To Viet Nam

WASHINGTON (AP)—The United States is sending more anti-guerrilla specialists to help train the 150,000-man South Vietnamese army to deal with Communist bands infesting that country's jungles.

Officials said today the U.S. instructors, like others before them, undoubtedly will work with South Vietnamese troops in areas of combat, but will not fight.

A 655-man U.S. Military Assistance Advisory Group has been in Red-threatened South Viet Nam for some time.

Like the new team, many members of this group were drawn from the Army's special forces. These are units intensively trained in coping with the tactics of terrorists and in teaching native forces to suppress rebels operating as guerrillas.

State Heads List Of Slum Homes

WASHINGTON (UPI)—Mississippi has a greater percentage of housing units which are either dilapidated or lack private plumbing facilities than any other state, it was reported today.

The Census Bureau said 49.2 per cent of Mississippi's housing units are substandard, way above the nation's average of 18.8 per cent.

The Bureau also said Mississippi has 26.7 per cent of its units deteriorating.

THERE are 58.3 million housing units in the nation, the Bureau reported. California had the lowest percentage of substandard units at 7.2 per cent.

In Mississippi, it said, 57.7 per cent of the state's 638,945 housing units were occupied by the owners as compared with the national percentage of 61.9. Some 3,400 units were for sale in the state and 12,033 rental units were vacant.

Worker To Hospital

Roscoe Skellion, 46, employee of Chicago Mill, was taken to King's Daughters Hospital in a National ambulance at noon today after he was taken suddenly ill at his home, 1006 Hannan Street.

Shortly after 1 p.m. his condition was reported satisfactory at the hospital.

Court Upholds Zoning Against Beer Dealers

JACKSON, Miss. (AP)—When legal beer sales resulted in lawlessness and defiance of the law in Carroll County, the Board of Supervisors had authority to zone it out, the state Supreme Court ruled today.

In a decision by Justice John Kyle, the court said the public health, safety and morals of the community were the basis of judgment whether the Board of Supervisors had authority to zone areas of the county.

In this case, the court said, Carroll County had the authority on the basis of an investigation which showed open lawlessness, defiance of the law and threats toward citizens as a result of beer sales.

THE board closed an area one-half mile wide bordering Grenada and Montgomery counties, a strip housing beer joints frequented by residents of nearby counties where the sale of beer is prohibited.

The appeal was filed by S. E. Herbert and Roy Dale, contending the zoning order was unreasonable, illegal and violated their constitutional rights.

In another case, the Supreme Court reduced from \$1,000 to \$500 the amount Atlanta County circuit court awarded Mary Nell Nails, 17, of Kosciusko for drinking a Coca-Cola containing wire and dirt.

The award was against the Jackson Coca-Cola Bottling Co.

City Police Hunt Auto Stolen Today

Police this afternoon searched for a stolen cream over green 1956 2-door Buick stolen between 8 a.m. and 12 noon today from a parking place between Henderson and Baird Hardware Company on Main Street and the I. C. Railroad tracks.

The automobile was listed by police as owned by Mrs. Charles Wilson, 1250 Washaw, and was parked just off Main Street by Mrs. Wilson's son, who works at the hardware firm.

The stolen car carries Washington County, Miss., license plate No. 881-057.

Three Minor Traffic Accidents Reported

Days since a traffic fatality in Greenville

Accidents this year

Injuries

Damages

Only three minor accidents were reported over the weekend, all on Saturday afternoon, with total damages of \$550 estimated for the three.

One was at Tribby near O'Hea at 10:04 p.m. when a parked car was sideswiped by another; the second was an intersection collision at Union and Persimmon at 8:05, and the third was at Highway 82 and Colorado at 7:45 when one car stopped for a red light and was hit from the rear by another.

The Kipsigis in Kenya use the same word for going to work and going to war, because the object in both cases is to get more cattle.

Senators Propose Medal Noting Bob Hope's Humor, Good Work

WASHINGTON (AP)—"Moments enriched by humor are moments free from hate and conflict, and therefore valued by mankind," said a Senate resolution today proposing a gold medal for comedian Bob Hope.

The resolution, prepared for introduction by Sen. Stuart Symington, D-Mo., on behalf of 97 senators, cited Hope's countless miles of travel around the globe to entertain American troops.

This phase of the rapid fire comedian's life already is well known to Americans, particularly those who served overseas during World War II and in Korea.

"Another less known side of Hope's life," Symington said, is that "for many years, quietly but consistently, this American has been engaged in a career of good works."

SYMINGTON said Hope has appeared in nearly every state on behalf of charitable, civic and philanthropic groups.

"All over our land," Symington said, "there are Hope fund-raising foundations for less fortunate people."

The British-born entertainer, 58 in two weeks, attempted to enlist after the United States entered World War II. He was told he could serve better as an entertainer to build morale.

Hope took the advice literally and traveled more than 1 million miles to entertain servicemen all the way from North Africa to the islands of the Pacific.

Deltans On Agenda At Cotton Clinic

Two Deltans will be among those addressing the Cotton Marketing Conference-Research Clinic sponsored by the National Cotton Council of America in Memphis Tuesday and Wednesday.

On Tuesday morning, Early C. Ewing Jr., director of research at Delta & Pine Land Company in Scott, will address the conference on "Producing Cotton to Meet Mill Demand for Fineness."

A. C. Griffin, physicist at the U. S. Department of Agriculture Cotton Ginning Research Laboratory in Stoneville will speak to the conference Wednesday morning on "Moisture Control in Ginning."

Griffin will describe a newly developed moisture detection and control scheme for cotton ginners that can be refined into a satisfactory control system.

The development record of the system was released to cotton gin machinery manufacturers at a meeting at Stoneville in March.

Science Shrinks Piles New Way Without Surgery

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were as thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name Preparation 119. At all drug counters.

All prices effective through Wednesday, May 17. Right reserved to limit.

took a more cautious attitude.

Fulbright said it would be perfectly legitimate for Kennedy and Khrushchev to get together, "but it ought not to be built up as a solution to the world's ills."

In similar vein, Bridges said he wouldn't be against a meeting but "would expect very little to be accomplished." Previous meetings with the Soviets have brought few gains to the Free World, Bridges said, and Kennedy should approach one with caution and decisiveness.

Freedom - -

sat down in front of the bus and dured driver O. T. Jones to start.

State Investigator E. L. Cowley, who got on the bus in Atlanta, prevented the occupants from leaving the bus, and Amniston police Chief J. L. Peck held back the crowd outside.

The bus was able to leave, but a fire went flat just outside the city. The mob, which had followed in private automobiles, began throwing stones at the windows. Someone tossed an incendiary device in one window, and the bus caught fire.

The mob disappeared as soon as the flames broke out, and the passengers left the bus. The interior of the vehicle was destroyed.

NO arrests were made.

Witnesses of the Birmingham incident said about 30 white men crowded around the "Freedom Riders" as they left their bus in the Trailways bus station. James A. Peck of New York City, editor of a CORE publication and one of the two leaders, was injured in the ensuing melee.

When four Negroes attempted to enter the station dining room with Peck, the mob converged and began hitting at the men with lengths of lead pipe, fists and kicking them, witnesses said. A radio newsmen reporting from the scene was dragged from his car and slugged and a newspaper photographer was attacked and his camera and equipment smashed.

Peck later was released from University Hospital after being confined for a period of several hours. None of the Birmingham victims remained in the hospital early today.

Police officials were not available for comment.
