'Reds Depict Khrush A Hero

MOSCOW (AP) —The Soviet press and radio did its best today to depict Premier Khrushchev as the man who averted a possible thermonuclear war over Cuba.

This was coupled with warning that the West should not interpret Soviet "peacefulness" as a weakness.

Both points were made on the front page of Pravda, the official Communist party newspaper, which said Khrushchev's decision to remove rockets from Cuba had the unanimous support of the Soviet people.

"The working people of Byelorussia, Kazakhstan, Georgia, Latvia and other republics of the country," said Pravda, "are giving their unanimous support to the wise policy of the Soviet government which was able, even in a most complicated situation, to find a way to avert the threat of thermonuclear war."

Both Pravda and the Moscow radio also gave much space to statements from abroad hailing Khrushchev as the savior of peace.

First Deputy Foreign Minister Vassily V. Kuznetsov's statement in New York saying Khrushchev and the Soviet government "are sparing no effort to avert the danger of war" was quoted here.

There were similar statements from half a dozen capitals commending Khrushchev for withdrawing what he described as "grim" weapons—in other words, rockets.

Only three days ago the papers were saying there were no such rockets, and that American photographs of their bases were faked. The United States was being described as one big area of hysteria.

Some Soviet citizens appeared to have only a vague idea of what had been going on during the past week. Very little of the American side of the Cuban case has been pointed here.

Nevertheless most Russians appeared relieved at the peaceful turn of events.

R.I. Youth Unit Conference Set

The Rhode Island Commission on Youth will sponsor a one-day conference on "Youth and Job Opportunities" at 10 a.m. Saturday at Rogers High School. The program of films, panels and lectures is centered on the problems of boys and girls who expect to quit school at 16 or who remain unprepared for today's automated economy.

Parents, students, businessmen and educators are being invited to attend. Judge Michael De Canlis of the Rhode Island Family Court will preside at a meeting on the "drop-out" problem at which Mrs. Ralph Pierce state PTA Congress president will be a panelist. Other topics will be "The Measure of Man," on the value of psychological testing; "A Businessman Looks at Students," a trampoline tumbling exhibition by the Providence YMCA team, and "You Never Had It So Good," a comparison of our educational system with five foreign systems by Joseph Devine, Jamestown superintendent of schools, who recently returned from a five-year teaching residency abroad.

The full conference, a resource kit and lunch will be included in the \$1 registration fee for adults, and 50 cents for students.

Two high school students will receive \$50 savings bonds for top graded essays on "High School Diplomacy — Highway to the Future."

Market Records

Burst Of Buying

NEW YORK (AP) —The stock market today celebrated the apparent agreement on the Cuban crisis with a burst of buying which lifted prices substantially. Trading was active early this afternoon.

The Associated Press average of 60 stocks at noon was up to a sharp gain of 3.7 at 214.9, with industrials up 5.6, rails up 1.3, and utilities up 2.2.

Key stocks were up from fractions to more than 2 points on a broad front, clipping their gains somewhat as the early excitement moderated.

Lifton Industries was up 1½, General Motors 1½, Zetel 3½, and Burroughs 2.

The advance took in most major sections of the list, but the space age defense stocks made only small gains at the start. As the session wore on most of these gains melted in view of the fact that international tensions seemed to be easing. Boeing, United Aircraft, and General Dynamics were about unchanged. Douglas Aircraft eased.

The top steel producers kept fractional gains and U.S. Steel, was barely ahead.

The Dow Jones industrial average at noon was up 10.38 at 579.40.

De Gaulle

take the same view. The president remained in seclusion at his country home at Colombey-les-deux-Eglises where he had voted.

Many of De Gaulle's opponents thought he should remain at the helm, regardless of the vote. However, they claimed that without De Gaulle's threat to resign and the Cuban crisis, the proposal would have been soundly beaten. Far from settling things, the referendum set the stage for a constitutional dispute and further political conflict.

Senate President Gaston Monnerville planned to challenge the legality of the referendum in the court for constitutional issues. Under the constitution, the referendum results cannot be proclaimed officially without council approval of the conduct of the vote.

R.I. Atty. Gen. Backs U.S. Gambling Raids

PROVIDENCE (AP) —The Rhode Island attorney general today endorsed federal gambling raids conducted without prior notice to local police.

At the same time Atty. Gen. J. Joseph Nugent, said state police have a similar law enforcement responsibility — whether invited in by local authorities or not.

However, the president of the Rhode Island Police Chiefs Association, John Crowley of Scituate, said the procedure casts reflections on every police chief in the state even though the federal attorney has "no confidence" in just one or two.

he at Bomdila, just important pass on the way to the Assam Plains.

A fair road connects Bomdila with the plains, enabling the Indian army to bring up light tanks and overcome a supply weakness partly responsible for some of the steady reverses of the nine-day-old border war.

Hard fighting also was indicated on the Ladakh front, some 850 miles westward along the jagged Himalayan frontier. The Indians said one post was lost there when the Chinese opened an attack around Demchok in overwhelming numbers with rapid-firing weapons.

The battleground there is nearly three miles high. Demchok is close to the undefined border of Kashmir, and the attack constitutes the farthest southward Chinese thrust in the western sector.
