Boy Drowns As Death Traps Drain

By TOM FLYNN

A massive effort to drain danger-filled pools of water from the MacArthur Freeway excavation to prevent a tragedy failed over the weekend when a 6-year-old boy toppled into one of the murky ponds and drowned.

His death brought to four the number of Bay Area children whose lives were claimed either during or after the merciless pounding of the Bay Area by the tail of Typhoon Frieda.

PATRICK HAISLIP, 6 Drowning victim

Though now gone for more than a week and her savage fury spent, the storm left behind a death trap with a fatal and irresistible lure for little Patrick Haislip.

The youngster wandered away from his home at 2824 Viola St. and down to a water-filled hole in the excavation where he drowned.

All week long workmen at the site had been pumping water from the storm-made lake with pumps rushed to Oakland from Los Angeles.

Ironically, they had stopped pumping at night on Friday after local residents complained about the roar of the gasoline pumps at night.

They resumed the pumping operation Saturday during the day and then shut down again that night. Only a few hours later, the boy was dead.

A spokesman for the contractors said, however, that it was doubtful the entire pond at 35th Ave. could have been drained by then even with round-the-clock pumping.

MAKESHIFT RAFT
The boy left behind a few broken boards police believe he might have been using as a makeshift raft when he apparently stumbled off into the muddy water.

Police patrols along the area have been put on special alert to watch for youngsters wandering near the ponds.

There are a number of such pools along the freeway construction right-of-way.

The youngster's body was found by skin-divers after a nine-hour search of the surrounding neighborhood by police had failed to turn up the boy.

Frank Pennock, an artist for The Tribune and member of the Alameda County Underwater Rescue Unit No. 9, located the youngster in 12 feet of water. The pool is only a half-dozen blocks away from the home of the boy's father.

Mrs. Roosevelt Rests at Home

NEW YORK — (UPI) — Mrs. Eleanor Roosevelt rested at home yesterday still bothered by the effects of the anemia condition for which she had been under treatment for three weeks at Columbia-Presbyterian Medical Center.

The former first lady was discharged from the hospital Thursday but will be in seclusion at her home for a while, her secretary said.

Doctors at the medical center said Mrs. Roosevelt could continue to be treated just as well at home.

JFK Calls Top Leaders In Crisis; Reds Open Third India Front

Latest Flareups Put Russ on Spot

By RAYMOND LAWRENCE Foreign News Analyst

The two flaring crises in the world today—the India-Red China war and Cuba — pose acute and confusing problems for the Soviet Union.

The Soviet Union, which has been pouring some \$1 million a day into Cuba to support Castro's shaky regime

now faces drastic action on the part of the United States which considers that the security of the entire Western Hemisphere is jeopardized.

In the case of India's disputed northern frontier, where open warfare is raging with Chinese forces, Moscow is confronted with open aggression on the part of Red China. The fact that Chinese forces are well within Indian territory demonstrates that the initiative was taken in Peiping.

This also is the view of the U.S. and British governments. **NEWS WITHHELD**
For the fourth day of the border fighting, that is the latest of a series of outbreaks, not a line appeared in the Soviet press or a word over the radio.

The question of aggression in the India-China controversy is a crucial one for the Soviets.

Communist Russia has a mutual assistance treaty with Communist China that obliges it to aid Peiping in the event of aggression. For this reason the Chinese Communist regime is trying desperately to prove that the Indians attacked first.

NIKITA ON SPOT
However, if Moscow accepts the Chinese Reds' contention it would create immense difficulties with the neutral nations. India has for years made great pretensions of being a leader of the neutralists in Asia, Africa and other parts of the world. The AP now reports from Moscow that most of the neutral nations appear to feel that this time the aggression clearly has come from China.

Quake Recorded At Pasadena

PASADENA — (UPI) — An earthquake of 3.2 magnitude was recorded at 4:11 a.m. today at the Pasadena Seismological Laboratory of the California Institute of Technology.

A spokesman said their seismograph did not give a reliable indication of where the quake centered but placed it 130 miles distant from the laboratory.

A later quake of similar intensity was reported at 5:31 a.m. and was believed to have occurred in El Cajon Valley, 25 miles east of San Diego.

Nixon in Plea for 'Equality'

Creation of a "Council of Equality of Opportunity" is proposed by Richard M. Nixon, the GOP nominee for governor.

He outlined his plan in addresses to Negro congregations here yesterday.

The former vice president spoke at the Church by the

KTVU Telethon

Richard Nixon will answer the public's questions on a television here tonight in his campaign for governor. The "no-holds-barred" question and answer program will be carried live over KTVU, Channel 2, from 9:30 p.m. to 12:30 a.m.

Side of the Road in Berkeley and at Taylor Memorial Methodist Church in Oakland.

The council he proposed would be composed of top educators, top labor leaders and top business leaders who would review the entire problem caused by discrimination and come up with solutions to assure that "this nation's great reservoir of talent is developed."

"I'd like to see offensive action—in an affirmative way—not just defensive action centered around hearing complaints regarding discrimination," Nixon said.

"It's vitally important as a matter of simple justice. But it's not just justice for the Negro community. It's what's good for the nation. We have a tremendous pool of talent that's going to waste because people aren't being given a chance."

"I want the state of California not simply to talk, to promise, to enforce the law against discrimination, but to assume a greater responsibility to develop an affirmative approach in California we have an opportunity to lead the nation in this field."

Noting that the first civil rights legislation was passed under the Eisenhower Administration, Nixon recalled that

Nehru Places Nation on War Footing At Key West

Compiled from AP and UPI

NEW DELHI — Red China sent a new wave of troops against a third front in the undeclared Indian border war today, and Prime Minister Jawaharlal Nehru called on India to put its economy on a war footing in the face of the Chinese aggression.

Nehru declared that the independence of India is threatened.

If necessary, everything else must be sacrificed to meet the threat to the freedom of the Indian people, Nehru said in a broadcast.

'UNSCRUPULOUS'
He said India is facing a "powerful and unscrupulous opponent."

He spoke at the end of the third day of the Chinese offensive into northeastern and northwestern India.

Today, Indian defense officials announced, the Chinese attacked near the junction of the Indian-Tibet-Burma border at the extreme eastern end of the frontier.

There were indications of an impending fourth Chinese attack in the center of the northeastern frontier.

TANKS NEAR AIRPORT

Using tanks in the western sector, in Ladakh, they captured four more Indian posts near Pangong Lake where they threatened the Chushul airfield, India's only landing strip for supply in the remote lofty region.

Nehru said there may be more reverses, but it is certain "the final result will be in our favor. It cannot be otherwise when the nation fights for freedom and the integrity of the country."

He said India must "carry on the struggle ... because we cannot submit to the aggression or domination of others."

In a voice that sounded tired

Hoffa Loses Appeal to High Court

WASHINGTON — James R. Hoffa, teamsters union president, today was denied a Supreme Court hearing on his complaint that President Kennedy and other high government officials had prejudiced a grand jury against him.

Hoffa was in Nashville, Tenn., for another federal court action, the opening of a trial on charges of conspiracy.

In the Supreme Court action, the grand jury, sitting in Orlando, Fla., had returned an indictment charging mail fraud against Hoffa and Robert F. McCarthy Jr., a Detroit bank employee.

Justices White and Goldberg took no part in consideration of the Hoffa appeal.

Counsel for Hoffa and McCarthy asked dismissal of the indictment on the ground they were deprived of a fair grand jury "through the conscious and deliberate instigation of propaganda hostile" to Hoffa by officials of the Federal Government.

"With the dockets of the federal courts in the congested condition seen today," their appeal said, "it is grossly inexpedient to proceed with a trial that will last several months on an indictment as questionable as this one."

Hoffa and McCarthy were accused of using \$500,000 in teamsters' funds to promote a housing development on the Florida East Coast as a teamsters' retirement haven when it was actually privately owned.

KEY WEST, Fla. — (AP) — Virtually every vessel at the Key West naval base pulled out of port today. There was no word on the ships' destinations.

A reporter who flew over the base said only one destroyer could be seen. Ships normally based here include five destroyers and three destroyer escorts of Destroyer Division 601 and 13 submarines of Submarine Squadron 12.

Crew members' relatives said men had been ordered to report before daylight without a previous alert.

BULLETIN

BOGATA, Colombia — (AP) — The army, navy and air force have been put on alert and leaves have been canceled, radio Caracol announced today.

The radio station chain, quoting what it described as informed sources in the military high command, said the order was issued after an emergency meeting of military leaders this morning.

Landing Maneuver Canceled

WASHINGTON — (AP) — A practice landing by 6,000 Marines on the Caribbean island of Vieques was canceled abruptly today.

The Defense Department said the practice landing through the surf and by helicopter had been called off because the ships of the Navy's amphibious force had been scattered by a hurricane.

The practice landing had been scheduled for tomorrow as the climax of an anti-submarine warfare amphibious exercise which began Oct. 15 and is due to wind up Oct. 30. The exercise involves about 40 Navy ships and 20,000 Navy and Marine men.

There was no immediate indication whether the landing might still be held before the end of the exercise period.

The cancellation came against the background of top level activity pointing to a possible major move in connection with Cuba.

Asked if cancellation had any relation to this activity, a Navy spokesman replied: "none whatever."

Vieques, an island off Puerto Rico, is about 500 miles from the eastern end of Cuba.

It is a regular training area for the Marine Corps and the Atlantic Fleet.

The big exercise was planned late last year. Similar drills have been held about once a year for some time.

Admiral Slain In Chicago Street

CHICAGO — (UPI) — Paul Joachim, 50, an art dealer and retired rear admiral in the Navy, was shot to death today on fashionable Lake Shore Drive.

Several witnesses said a young man, slightly built and about 18 years of age, shot the victim four times, rifled his pockets, walked away and then returned and searched the body again. The assailant then fled, they said.

Police said Joachim was walking home from a Lyric Opera performance, and was just a few doors from the lakefront apartment building where he lived with his mother when the attack occurred.

The weapon used was probably a .22 caliber pistol, police said.

Broadcast by President To Spell Out U.S. Peril; Cuba Leads Rumor List

Compiled from AP and UPI

WASHINGTON — President Kennedy today recalled top congressional leaders to the capital and decided to address the nation on radio and television tonight on an international situation of the "highest national urgency."

There was no official indication of the nature of the crisis. There was no hint whether it concerned Cuba, Berlin, or India, where the Chinese Communists have new attacks.

The White House finally broke two days of official silence on the growing mystery at noon. Press Secretary Pierre Salinger announced that Kennedy had asked the television networks for 30 minutes to discuss "a subject of the highest national urgency."

Salinger said the President would confer first with the National Security Council, his Cabinet, and the returning congressional leaders. Many of the leaders interrupted their reelection campaigns to fly back to Washington in military jets.

While most speculation centered on Cuba, there was some indication that the crisis before the President might

JFK on Air Today

President Kennedy goes on the air at 4 p.m. today on all network radio and all television stations. Repeat broadcasts on radio are scheduled for 7:30 p.m. by KNBC, and 8 p.m. by KGO.

not be limited to Castro's Soviet-backed military buildup, but might involve a major problem of overall foreign policy.

BERLIN EXPERTS

This was seen from the fact that Kennedy this morning conferred with Martin Hillenbrand, who heads a special State Department task force dealing with Berlin. He also met with Llewellyn Thompson, his adviser on Soviet affairs.

Vice President Lyndon B. Johnson already had returned to Washington. Fifteen senators and representatives, including chairmen and top minority members of the Armed Services and Foreign Relations Committees of Congress, were asked to attend the conference with Kennedy.

Sen. Thomas Kuchel, R., Calif., was called back from San Diego.

Kennedy conferred this morning with key officials including Secretary of State Dean Rusk and Secretary of Defense Robert S. McNamara. For 36 hours Washington has been alive with conjecture that a new crisis was brewing in Cuba. In answer to questions, however, Salinger said he did not believe that Edward Martin, assistant Secretary of State for Inter-American Affairs, participated in the White House talks this morning.

SALINGER SILENT

Salinger refused to answer when asked if the urgent subject covers more than one country. Asked if the situation could lead to some kind of message to the United Nations, Salinger said he could not reply at this time.

The White House, State Department, Defense Department, and other government agencies maintained strict silence on Kennedy's plans, with one exception.

Assistant Secretary of Defense Arthur Sylvester denied that United States forces which have been massed in the Caribbean area for maneuvers would invade Cuba.

A landing practice at Vieques Island near Puerto Rico was called off, and it was clear that the Marines and the vessels were available for other action.

Salinger persistently declined to expand on his announcement that Kennedy had

Stock Prices Drop, Then Rise Slightly

NEW YORK — (AP) — The stock market slumped badly, then tried to steady itself in the early afternoon, as concern over international news made Wall Street jittery.

The high-speed quotation wire, which had run behind trading all morning, had caught up with transactions by 1 p.m. Averages rose a little from morning levels but continued well below their Friday close.

The Dow Jones industrial average at 1 p.m. was 567.31, down 5.90.

Fog Slows Traffic To Crawl

Bay Area commuter traffic crawled to work today through thick fog—a fog that blanketed an area from Santa Rosa to Salinas.

The north-bound lane of the Nimitz Freeway, carrying commuters into Oakland and to the Bay Bridge, was a creeping mass of motor cars, jammed far beyond the normal.

Fog-slowed traffic began backing up at Winton Ave. in Hayward, three miles south of where Nimitz commuters normally are forced to slow because of the rush hour crush.

San Francisco-bound commuters from Marin County drove bumper to bumper, barely moving across the fog-shrouded Golden Gate Bridge.

All Bay Area airports were closed most of the morning. The San Francisco International Airport, closed for several hours yesterday morning by the fog, opened for 21 hours, then closed again from 8 a.m. to 11:30 a.m. today.

Some airliners were diverted to Los Angeles, including one carrying Vice President Lyndon B. Johnson, returning from a campaign trip to Hawaii.

Visibility at most airports was zero with ceilings less than 100 feet until after 11 a.m.

The Federal Aviation Agency's Air Route Traffic Control Center in Fremont took over control and routing of regional aircraft.

In most cases, they recommended aircraft remain at airports outside the fog until the fog lifted later in the morning.

At the Metropolitan Oakland International Airport and the Alameda Naval Air Station all air traffic was halted for several hours.

The U.S. Weather Bureau reported the fog began forming shortly after midnight.

At 3 a.m., the Oakland air terminal closed to traffic. The ceiling was 100 feet, visibility, zero.

Heavy fog early Sunday caused similar congestion and air traffic problems.

The Sacramento airport was forced to send in-bound pas-
