3—Louis J. Breuner

The Tribune recommends a complimentary vote for judges and other candidates who are unopposed.

Propositions—Page 2

Good News Sends Stock Prices Up

NEW YORK—(AP)—The stock market closed with a substantial gain today, although final prices were below their best levels of the day in many cases.

Key issues scored gains up to \$2 a share early this afternoon and more volatile stocks posted higher advances.

American Telephone was ahead \$2.27 at \$107, Du Pont \$4.12 at \$209.50 and International Business Machines \$10.25 at \$341.75.

At noon the Associated Press 60-stock average had climbed 3.7 to 214.9 and the Dow Jones average of 30 industrial stocks 10.38 to 579.40. Standard & Poor's 500-stock average was up 1.26 at 55.75.

Big blocks of stocks changed hands as 1.97 million shares were traded in the first two hours, compared with 940,000 in the like period Friday.

The advance followed generally higher prices on the London stock market this morning.

The New York market experienced some drastic swings last week, mostly in step with international situation, and ended with a slight net loss.

THE HUMPS' GHOST JAMS BAY BRIDGE

Remember the Horrible Hump and how Bay Bridge motorists had to slow down to traverse it?

Well, the hump is gone now and one would think that traffic would move along smoothly.

Not so, says the Highway Patrol. People now are slowing down to see where the hump went, and traffic this morning was backing up to the toll plaza.

Commented a weary patrolman, "It'll be a week before they figure out the hump isn't there anymore."

American Arms Will Go to India

Nehru Needs Guns To Halt Advance Of Chinese Forces

WASHINGTON — (AP)—The United States has set machinery in motion to rapidly fill India's request for automatic weapons to repel invading Chinese Communist forces.

It appeared that some U.S. Army small arms and ammunition stocked in Thailand will be tapped to insure rapid delivery.

Defense authorities would only say that details of India's arms request have not yet been discussed here but that India has been given assurances of sympathy and promised rapid consideration for the arms request.

GREATEST NEED

Indian diplomatic sources said that automatic weapons are the greatest need of the Indian armed forces.

Sten and Bren guns purchased in Britain recently have arrived in India.

Indian sources have said Prime Minister Nehru's government will insist that the arms from the United States be purchased rather than obtained in a grant of military assistance.

But India will ask for credit to pay for the arms purchases at a later date.

NEGOTIATIONS

Two Indian defense officials are in Washington and are expected to negotiate for American weapons and arrange the details of the purchase.

The Indian officials came to the United States last week to coordinate the purchase of spare parts for C119 flying boxcars which India had acquired.

Meanwhile, India was reported to have scored a victory over the Red Chinese today, recapturing a village which fell to the invaders Oct. 25.

Informed sources said the Chinese retreated without resistance from the village of Jang, four miles east of To-wang on the northeast frontier.

The informant said the recapture of Jang was considered an important stride for

Earthquake Felt In L.A. Region

LOS ANGELES — (UPI)—A "potentially damaging" earthquake rocked much of Southern California last night but apparently caused no damage.

Residents from West Los Angeles to Palm Springs, 100 miles distant, reported feeling the tremor.

Dr. Charles F. Richter, California Institute of Technology seismologist, said the quake, recorded at 6:43 p.m., had a magnitude of 4.7 on the Richter scale. It was centered about 80 miles east or northeast of Pasadena, he said.

Some Phone Calls Unanswered at CD

More Lines Will Be Installed in Oakland Office

Did you try to call Oakland's Civil Defense office during the weekend?

The Tribune did, seeking information on fallout shelters anonymously. Only once in several tries was the telephone answered. At that time, a spokesman referred the caller to the list of shelters that was published Sunday in The Tribune.

Police Lt. Charles Hansen, supervisor of the city's CD office, said the office is not open on a 24-hour basis.

But, he pointed out, additional telephones are being installed and a system is being worked out to transfer incoming calls—made outside of normal work day hours—to the Oakland Police Department.

Presently, calls made through city hall operators after working hours are being transferred under that plan, Hansen said.

But, when The Tribune made a fallout shelter inquiry of the Police Department, an officer said, "I'm sorry we don't know... we don't have a list of designated fallout shelters."

On another call, the officer advised: "Just go to the nearest school or large building."

City CD officials said how-

Action May Split Peiping, Moscow Anew

By JOHN RODERICK

TOKYO —(AP)—Soviet Premier Khrushchev's order to withdraw his missiles from Cuba may touch off a new struggle between the Soviet and Chinese Communists to win control of the Cuban revolution.

It also could dangerously heighten the ideological quarrel between Peiping and Moscow.

Mao Tze-tung was one of the first to support Fidel Castro's revolt against dictator Fulgencio Batista. Peiping called Castro's 1959 victory a "defeat of U.S. imperialism in Cuba."

It seemed apparent during Castro's first year of rule that Moscow had given Peiping priority to exploit the Cuban revolution and to seek to scatter its flames in the whole Caribbean area.

From the beginning, the Chinese were active with trade and diplomatic missions which culminated in Castro's severance of relations with the Chi-

Air Traffic To Oakland, S.F. Socked In

A motionless sea of fog, which brought visibility down to zero in some places, closed 10 Bay Area airports for six hours this morning and caused diversion of half a dozen San Francisco-bound planes to Oakland.

More fog is forecast for tomorrow morning.

The airports were open by noon today. San Francisco was socked in until 11:41 a.m. Metropolitan Oakland International Airport was open sporadically during the morning. Both civilian and military fields were affected.

The dense fog rolled in at about 6 a.m. and was sporadic in its coverage. Parts of the Bay Area were clear, while other sections—such as the zero visibility along the peninsula—were socked in.

This is the fourth consecutive day of heavy fog in the San Joaquin-Sacramento delta region.

U Thant Havana Trip Set

By WILLIAM N. OATIS

UNITED NATIONS, N.Y.—(AP)—Acting Secretary-General U Thant conferred with a special envoy of Soviet Premier Khrushchev today and made hurried plans for a peace mission to Cuba. Thant is trying urgently to nail down a U.S.-Soviet deal to end the missile base crisis.

Continuing his talks on the Cuban problem, Thant had a two-hour session with Soviet First Deputy Foreign Minister Vasily V. Kuznetsov, who arrived yesterday from Moscow.

Kuznetsov emerged smiling. He was accompanied by Deputy Foreign Minister Valerian A. Zorin, who had doggedly denied existence of Soviet missile bases in Cuba.

Thant then met Cuban Ambassador Mario Garcia-Inch-astegui.

U.S. Ambassador Adlai E. Stevenson hoped to see Thant today.

The three-man U.S. coordinating committee headed by John J. McCloy is expected to report to Stevenson shortly.

Thant and a dozen aides will fly to Havana tomorrow to begin arrangements for U.N. supervision of the withdrawal of Soviet missiles, which Khrushchev and President Kennedy agreed to in an exchange of letters yesterday.

Castro last Tuesday rejected the idea of U.N. observers in Cuba. But it was assumed here Khrushchev's reversal of the Soviet position on the missile bases also reversed Castro's opposition to observers.

Stevenson saw Thant yesterday morning and received a letter from the secretary-general to Kennedy. Last night he delivered the President's reply.

Brazil Proposes Atom-Free Zones

UNITED NATIONS, N.Y.—(AP)—Brazil formally proposed today that the United Nations declare Africa and Latin America denuclearized zones and recommend immediate removal of all nuclear weapons from those areas.

The Brazilian resolution was submitted to the General Assembly's 110-nation political committee in a move which appeared to be aimed directly at Cuba.

Reds Sentence Yank

BERLIN — (UPI)—An East Berlin court today sentenced Jean F. Loba, 37, of Altadena, Calif., to two and one-half years in prison on charges of plotting to smuggle refugees to West Berlin.

Spray of Molten Steel Burns 13 in Plant Blast

Thirteen persons were injured, three critically, early today when an explosion rocked the Superior Electro Cast Foundry at Harbor Way and E. Grand Ave. in South San Francisco.

The plant was demolished. Police said the blast came when molten steel used for casting gears was being poured into a huge ladle operated from an overhead crane. Damage was estimated at \$60,000.

Edward B. Soper, 62, of 4377 El Camino Real, Sunnyvale, the crane operator, was hurled from the cab and suffered critical internal injuries.

Windows in buildings nearby a block away were shattered by the blast and cars on the street damaged.

CRISIS IN BRIEF

By the Associated Press  
These are the major developments in the Cuban crisis.

• President names three-man committee to negotiate for effective U.N. inspection of removal of Soviet bases in Cuba

• Soviet Premier Khrushchev said he was ordering Soviet missile bases in Cuba dismantled and their rockets returned to Russia.

• U Thant, acting secretary-general of the United Nations, arranged to fly to Cuba tomorrow. American diplomats worked on arrangements for U.N. inspection of the arms withdrawal.

• American diplomats said Castro's prestige had suffered a damaging blow but that his capacity for trouble-making subversion in Latin America had not been ended. The official Havana radio called for terrorist agitation in Latin America.

• Khrushchev's pledge was hailed in Western capitals as a stunning victory for the United States.

Nation's Diplomats Remain on Guard

Crackdown On Sabotage In Venezuela

Compiled from AP and UPI

CARACAS, Venezuela—Marines today guarded vital installations in the rich oil-producing regions around Lake Maracaibo against possible new attacks by Communist-Castroite terrorists.

Sources in Washington said Cuban Prime Minister Fidel Castro gave the signal for general terrorist action in Latin America, with the American-operated oil fields in Venezuela a prime target.

Saboteurs dynamited four power stations of the Creole Petroleum Corp. at Lake Maracaibo, which holds beneath its waters one of the world's richest oil stores.

The bombers struck shortly after midnight Saturday, a few hours after President Romulo Betancourt ordered mobilization to counter the threat to Venezuela of "the reservoir of Soviet nuclear rockets in Cuba."

U.S. officials were reported reminding Latin Americans that while a settlement may now be in sight to dismantle the Soviet missile sites, the long-range problem of dealing with Castro in this hemisphere will remain.

The Interior Ministry said two captured saboteurs were Venezuelan Communists.

U.N. Inspection Will Be Key to Effective Pact

By RAYMOND LAWRENCE

Foreign News Analyst  
The United States, proceeding with caution, kept up its guard today in the diplomatic rush to settle the Cuban crisis.

There are solid grounds for prudence in dealing with the shaky understanding between President Kennedy and Soviet Premier Khrushchev.

The main one is the need for an airtight guarantee that the Russians observe the pledge to remove offensive weapons from Cuba, since the whole post-war period is defaced by a long record of Soviet mendacity and violation of agreements.

So, the key issue in this situation is the arrangement of United Nations inspection to verify that the Soviet premier carries out his pledge.

A second impediment may stem from the demand of Cuban Premier Castro that the United States surrender its big naval base at Guantanamo, on which this country has a 99-year lease, discontinue the blockade and air surveillance.

In a bitter anti-American speech, the Premier's brother Raul, chief of Cuba's armed forces, challenged the U.S. to invade Cuba and praised the Soviet Union for averting a world war. But neither of the Castros mentioned the fact

Russians Shun Film Festival

The five-man Russian group which originally planned to attend the San Francisco International Film Festival cancelled its trip suddenly this morning.

Festival headquarters said no explanation was given.

Although the Russians themselves will not be here, they will still enter their two scheduled films. These are "Ivan's Childhood," scheduled for Nov. 3, which won the Venice Grand Prix, and "Nine Days of One Year," scheduled for Nov. 8, and was dubbed the "best film" at Czechoslovakia's Karlovy Vary Festival.

The festival opens Wednesday.

U.S. Seeks To Clinch Promises

By LEWIS GULICK

WASHINGTON — (AP)—The United States pushed today for fast diplomatic action to nail down Soviet Premier Khrushchev's agreement to pull Soviet missile bases out of Cuba.

Washington policymakers held hope—mixed with liberal doses of caution—that a

Message Texts Page 4

breakthrough had been scored in the U.S.-Soviet confrontation that bordered on potential nuclear conflict.

President Kennedy set up a special three-man committee to handle negotiations looking toward an end to the crisis.

MCCLOY CHAIRMAN

He designated John J. McCloy, whom he previously had appointed Special Assistant to U.N. Ambassador Adlai Stevenson during the period of the Cuban emergency, as chairman of the group.

Other members are Undersecretary of State George W. Ball and Deputy Secretary of Defense Roswell L. Gilpatric.

Khrushchev's pledge was hailed in Western capitals as a stunning victory for the United States.

Informed sources said there were no deals or secret understandings involved with the Soviet leader's offer. The only price he really asked was a guarantee, which Kennedy gave, that the United States would not invade Cuba.

FOCUS ON DETAILS

American diplomats focused on working out arrangements for U.N. inspection of the withdrawal from Cuba of the "grim weapons" which Khrushchev

Continued Page 3, Col. 7

Air Cameras Seek Proof Of Removal

WASHINGTON—(AP)—U.S. reconnaissance planes focused their sensitive cameras on Cuba today in search for evidence that the Russians are starting to dismantle their missile bases there.

The American blockading fleet remained on guard in the Atlantic, but no Russian ships were reported within two or three days steaming time of the U.S. "quarantine" line.

There was an almost tangible easing of the tension that gripped the nation during the past week of crisis.

But there was no accompanying reversal of the military preparations which had been mounting toward an intended bombing strike or invasion of Cuba.

Informed officials said they don't expect to see any substantial reduction in those preparations until this country is convinced the missile threat from Cuba is removed.

Even after that, it is almost certain that aerial surveillance will be continued over Cuba to make sure there is no new sneak try at setting up ballistic missiles.

It was such surveillance that first alerted the U.S. Government to the danger about two weeks ago.

Authorities said the 14,000 Air Force reservists who went on active duty yesterday probably would be kept in service for the time being.

It could take a little time for the Pentagon's photo-interpreters to reach any conclusions as to whether the Russians are living up to Khrushchev's promise
